

# CURRENT POPULATION SURVEY, SEPTEMBER 2000: FOOD SECURITY SUPPLEMENT PUBLIC USE FILE

## TECHNICAL DOCUMENTATION CPS—02

This file documentation consists of the following materials:

Attachment 1	Abstract
Attachment 2	Overview - Current Population Survey
Attachment 3	Overview - September 2000 Food Security Supplement
Attachment 4	Glossary
Attachment 5	How to Use the Record Layout
Attachment 6	Changes to CPS Public Use Files Effective September 1995
Attachment 7	Basic CPS Record Layout
Attachment 8	Current Population Survey September 2000 Food Security Supplement Record Layout
Attachment 9	Current Population Survey September 2000 Food Security Supplement Questionnaire
Attachment 10	Industry Classification Codes
Attachment 11	Occupation Classification Codes
Attachment 12	Specific Metropolitan Identifiers
Attachment 13	Topcoding of Usual Hourly Earnings
Attachment 14	Tallies of Unweighted Counts
Attachment 15	Countries and Areas of the World
Attachment 16	Allocation Flags
Attachment 17	Source and Accuracy of the September 2000 Food Security Supplement Data
Attachment 18	User Notes

### NOTE

Questions about accompanying **documentation** should be directed to Administrative and Customer Services Division, Electronic Products Development Branch, Bureau of the Census, Washington, D.C. 20233. Phone: (301) 457-1326.

Questions about the **tape** should be directed to Marketing Services Office, Customer Services Center, Bureau of the Census, Washington, D.C. 20233. Phone: (301) 763-INFO (4636).

Questions about the **subject matter** should be directed to Teresa Hicks, Demographic Surveys Division, Bureau of the Census, Washington, D.C. 20233. Phone: (301) 457-3806.

## ABSTRACT

*Current Population Survey, September 2000: Food Security Supplement [machine-readable data file] / conducted by the U.S. Census Bureau for the Economic Research Service, U.S. Department of Agriculture. -Washington: Bureau of the Census [producer and distributor], 2001.*

### **Type of File:**

Microdata; unit of observation is individuals within housing units.

### **Universe Description:**

The universe consists of all persons in the civilian noninstitutional population of the United States living in households. The probability sample selected to represent the universe consists of approximately 57,000 households.

### **Subject-Matter Description:**

Data are provided on labor force activity for the week prior to the survey. Comprehensive data are available on the employment status, occupation, and industry of persons 15 years old and over. Also shown are personal characteristics such as age, sex, race, marital status, veteran status, household relationship, educational background, and Hispanic origin.

The CPS Food Security Supplement was conducted by the U.S. Census Bureau for the Economic Research Service (ERS) of the U.S. Department of Agriculture (USDA). Supplement questions were asked of all interviewed households, as appropriate. The supplement was intended to research the full range of severity of food insecurity and hunger as experienced in U.S. households.

Based on this research, the USDA has developed comprehensive food security measurement scales and food security status indicators, which are described in Attachment 3, Overview - Food Security Supplement.

**Please be advised, however, that responses to any of the supplement's individual items are not, taken alone and in themselves, meaningful measures of food insufficiency, food insecurity, or hunger, and should not be used as such.**

### **Geographic Coverage:**

States, regions and divisions are identified in their entirety. Within confidentiality restrictions; indicators are provided for consolidated metropolitan statistical areas (CMSA), 173 selected metropolitan statistical areas (MSA), 69 selected primary metropolitan statistical areas (PMSA), 217 counties, and 41 central cities in multi-central city metropolitan statistical areas or primary metropolitan statistical areas. Also within confidentiality restrictions, indicators are provided for metropolitan/nonmetropolitan, central city/balance metropolitan, MSA/CMSA size and MSA/PMSA size.

**Technical Description:**

File Structure: Rectangular.

File Size: 134,856 logical records; 1,115 character logical record length.

File Sort Sequence: State rank by CMSA/MSA rank by household identification number by line number.

**Reference Materials:**

*Current Population Survey, Food Security Supplement Technical Documentation.* Documentation contains this abstract, including ordering information, overview, definitions, questionnaire facsimiles, code lists, and record layouts of the file. One copy accompanies each file order. Additional copies are available from Marketing Services Office, Customer Services Center, Bureau of the Census, Washington, DC 20233.

**File Availability:**

The file may be ordered from Marketing Services Office, Customer Services Center using the Customer Services [order form](#) on the following page. It is available on CD-R (compact disc-recordable) in ASCII format. Also, it is available on the Internet at <http://www.bls.census.gov/cps>

## Census Bureau Order Form

Use this form to order CD-ROM's, tape-to-CD-ROM, customer products, technical documentation, computer tapes and cartridges, diskettes, and publications sold by Customer Services.

**Charge your order: It's easy!** MasterCard - VISA  
 To fax your order: 888-249-7295  
 Phone orders and special handling: 301-763-INFO (4636)

**Please Type or Print.** Prices include regular domestic postage and handling. **International customers, please add 33%.**

Quantity	Product Code	Title/series	Price each	Total price
<b>Total for products listed</b>				

### Computer Tape Instructions

All tape files are on 6250 bpi reels, have standard ANSI labeling, and are blocked at 32K bytes. Also, they are available on IBM model 3480-compatible tape cartridges. Please specify your choice of:

\_\_\_ Tape reel or \_\_\_ Tape Cartridge      \_\_\_ EBCDIC or \_\_\_ ASCII

**Please Type or Print.**

\_\_\_\_\_ (Company or personal name)

\_\_\_\_\_ (Additional address/ attention line)

\_\_\_\_\_ (Street address)

\_\_\_\_\_ (City, State, and ZIP Code)

\_\_\_\_\_ (Daytime phone, including area code, and date)

**Please Choose Method of Payment:**

Check payable to Commerce-Census

Census deposit account: [ 9 ] \_\_\_\_\_

VISA or  Master Card account: \_\_\_\_\_ - \_\_\_\_\_ - \_\_\_\_\_ - \_\_\_\_\_

Expiration date \_\_\_\_ - \_\_\_\_

\_\_\_\_\_ (Name on card)

\_\_\_\_\_ (Signature)

### OVERVIEW

#### Current Population Survey

##### Introduction

The Current Population Survey (CPS) is the source of the official government statistics on employment and unemployment. The CPS has been conducted monthly for over 50 years. Currently, we obtain interviews from about 48,000 households monthly, scientifically selected on the basis of area of residence to represent the nation as a whole, individual states, and other specified areas. Each household is interviewed once a month for four consecutive months one year, and again for the corresponding time period a year later. This technique enables us to obtain reliable month-to-month and year-to-year comparisons at a reasonable cost while minimizing the inconvenience to any one household.

Although the main purpose of the survey is to collect information on the employment situation, a very important secondary purpose is to collect information on demographic characteristics such as age, sex, race, marital status, educational attainment, family relationship, occupation, and industry. From time to time, additional questions are included on health, education, income, and previous work experience. The statistics resulting from these questions serve to update similar information collected once every 10 years through the decennial census, and are used by government policymakers and legislators as important indicators of our nation's economic situation and for planning and evaluating many government programs.

The CPS provides current estimates of the economic status and activities of the population of the United States. Because it is not possible to develop one or two overall figures (such as the number of unemployed) that would adequately describe the whole complex of labor market phenomena, the CPS is designed to provide a large amount of detailed and supplementary data. Such data are made available to meet a wide variety of needs on the part of users of labor market information.

Thus, the CPS is the only source of monthly estimates of total employment (both farm and nonfarm); nonfarm self-employed persons, domestics, and unpaid helpers in nonfarm family enterprises; wage and salaried employees; and, finally, estimates of total unemployment.

It provides the only available distribution of workers by the number of hours worked (as distinguished from aggregate or average hours for an industry), permitting separate analyses of part-time workers, workers on overtime, etc. The survey is also the only comprehensive current source of information on the occupation of workers and the industries in which they work. Information is available from the survey not only for persons currently in the labor force but also for those who are outside the labor force. The characteristics of such persons - whether married women with or without young children, disabled persons, students, older retired workers, etc., can be determined. Information on their current desire for work, their past work experience, and their intentions as to job seeking are also available.

For a more detailed discussion about the basic labor force data gathered on a monthly basis in the CPS survey, see "Revisions in the Current Population Survey Effective January 1994" in the February 1994 issue of *Employment and Earnings* published by the Bureau of Labor Statistics.

## **CPS Sample Design**

The current CPS sample is selected based on 1990 census information. The first stage of the 1990 sample design created 2,007 geographic areas called primary sampling units (PSUs) in the entire United States. These PSUs were grouped into strata within each state. Some of these PSUs formed strata by themselves and were in sample with certainty, which is referred to as self-representing. Of the remaining nonself-representing PSUs, one PSU was selected from each stratum with the probability of selection proportional to the population of the PSU. A total of 754 PSUs were selected for sample containing 2,121 counties, minor civil divisions, and independent cities. The second stage of the sample design selected housing units within these PSUs.

Approximately 60,000 housing units are assigned for interview each month, of which about 50,500 are occupied and thus eligible for interview. The remainder are units found to be destroyed, vacant, converted to nonresidential use, containing persons whose usual place of residence is elsewhere, or ineligible for other reasons. Of the 50,500 occupied housing units, approximately 5 percent are not interviewed in a given month due to temporary absence (vacation, etc.), the residents are not found at home after repeated attempts, inability of persons contacted to respond, unavailability for other reasons, and refusals to cooperate. The interviewed households contain approximately 94,000 persons 15 years old and over, approximately 28,000 children 0-14 years old, and about 450 Armed Forces members living with civilians either on or off base within these households. A more precise explanation regarding the CPS sample design is provided in "Explanatory Notes and Estimates of Error: Household Data - Sampling" in any issue of *Employment and Earnings*.

## **Relationship of Current Population Survey Files to Publications**

Each month, a significant amount of information about the labor force is published by the Bureau of Labor Statistics in the *Employment and Earnings* and *Monthly Labor Review* reports.

As mentioned previously, the CPS also serves as a vehicle for supplemental inquiries on subjects other than employment, which are periodically added to the questionnaire. From the basic and supplemental data, the Bureau of the Census issues three series of publications under the general title Current Population Reports:

- P-20 Population Characteristics
- P-23 Special Studies
- P-60 Consumer Income

All Current Population Reports, including the other series for population estimates and projections and special censuses, may be obtained by subscription from the U.S. Government Printing Office at 202-783-3238. Subscriptions are available as follows: Population Characteristics, Special Studies, and Consumer Income series (P-20, P-23, P-60) combined, \$101 per year (sold as a package only); Population Estimates and Projections, (P-25), \$27 per year. Single issues may be ordered separately; ordering information and prices are provided in the Bureau of the *Census Catalog and Guide*, the *Monthly Product Announcement* (MPA), and in *Census and You*. Selected reports also may be accessed on the INTERNET at <http://www.census.gov/prod/www/subject.html#pop>

## **Geographic Limitations**

The CPS sample was selected so that specific reliability criteria were met nationally, for each of the 50 States and for the District of Columbia. Since 1985, these reliability criteria have been maintained through periodic additions and deletions in the State samples. Estimates formed for geographic areas identified on the microdata file which are smaller than states are not as reliable.

## Weights

Under the estimating methods used in the CPS, all of the results for a given month become available simultaneously and are based on returns for the entire panel of respondents. The CPS estimation procedure involves weighting the data from each sample person. The base weight, which is the inverse of the probability of the person being in the sample, is a rough measure of the number of actual persons that the sample person represents. Almost all sample persons in the same state have the same base weight, but the weights across states are different. Selection probabilities may also differ for some sample areas due to field subsampling, which is done when areas selected for the sample contain many more households than expected. The base weights are then adjusted for noninterview, and the ratio estimation procedure is applied.

1. **Noninterview adjustment.** The weights for all interviewed households are adjusted to the extent needed to account for occupied sample households for which no information was obtained because of absence, impassable roads, refusals, or unavailability of the respondent for other reasons. This noninterview adjustment is made separately for clusters of similar sample areas that are usually, but not necessarily, contained within a state. Similarity of sample areas is based on Metropolitan Statistical Area (MSA) status and size. Within each cluster, there is a further breakdown by residence. Each MSA cluster is split by "central city" and "balance of the MSA". Each non-MSA cluster is split by "urban" and "rural" residence categories. The proportion of occupied sample households not interviewed fluctuates around 5 percent depending on weather, vacations, etc.
2. **Ratio estimates.** The distribution of the population selected for the sample may differ somewhat, by chance, from that of the population as a whole in such characteristics as age, race, sex, and state of residence. Because these characteristics are closely correlated with labor force participation and other principal measurements made from the sample, the survey estimates can be substantially improved when weighted appropriately by the known distribution of these population characteristics. This is accomplished through two stages of ratio adjustment as follows:
  - a. *First-stage ratio estimate.* The purpose of the first-stage ratio adjustment is to reduce the contribution to variance that results from selecting a sample of PSUs rather than drawing sample households from every PSU in the nation. This adjustment is made to the CPS weights in two race cells: black and nonblack; it is applied only to PSUs that are nonself-representing and for those states that have a substantial number of black households. The procedure corrects for differences that existed in each state cell at the time of the 1990 census between 1) the race distribution of the population in sample PSUs and 2) the race distribution of all PSUs (both 1 and 2 exclude self-representing PSUs).
  - b. *Second-stage ratio estimate.* This procedure substantially reduces the variability of estimates and corrects, to some extent, for CPS undercoverage. The CPS sample weights are adjusted to ensure that sample-based estimates of population match independent population controls. Three sets of controls are used:
    - 1) 51 state controls of the civilian noninstitutional population 16 years of age and older
    - 2) national civilian noninstitutional population controls for 14 hispanic and 5 nonhispanic age-sex categories

- 3) national civilian noninstitutional population controls for 66 white, 42 black, and 10 "other" age-sex categories

The independent population controls are prepared by projecting forward the resident population as enumerated on April 1, 1990. The projections are derived by updating demographic census data with information from a variety of other data sources that account for births, deaths, and net migration. Estimated numbers of resident Armed Forces personnel and institutionalized persons reduce the resident population to the civilian noninstitutional population. Estimates of net census undercount, determined from the Post Enumeration Survey, are added to the population projections. Prior to January 1994, the projections were based on earlier censuses, and there was no correction for census undercount. A summary of the current procedures used to make population projections is given in "Revisions in the Current Population Survey Effective January 1994" in the February 1994 issue of Employment and Earnings.

### **Comparability of CPS From Microdata Files With Published Sources**

Although total estimates of the population will equal published estimates, labor force estimates produced from a microdata file will not be directly comparable or identical with the published nonseasonally adjusted labor force data. The major reason for this is due to a final estimation procedure incorporated into the production of the published nonseasonally adjusted data. This procedure, known as a composite estimator, is a weighted average of two estimates for the current month for any particular item. The first estimate is the two-stage ratio estimate that includes all the estimation steps given above. The second estimate consists of the composite estimate for the preceding month to which has been added an estimate of the change from the preceding month, based on that part of the sample which is common to the two months (about 75 percent). This procedure is primarily used to increase the reliability of estimates of month-to-month change, although other reliability gains are also realized. As noted above, the composite estimation procedure does not affect estimates of the total population.

Another factor also inhibits microdata comparison with published labor force data. This is the seasonal adjustment that is applied to many published statistics. This adjustment is used to adjust for normal seasonal variations to help distinguish the underlying economic situation in month-to-month changes.

Shown below are data from January and July 1993 which demonstrate how estimates compiled using the final weights from the microdata file may differ from the published composited estimates, with and without seasonal adjustment. Note that the composite estimation procedure was not used for estimates published from January 1994 to May 1994. For a further description of both the composite estimator and seasonal adjustment, see "Explanatory Notes and Estimates of Error: Household Data - Estimating Methods (Composite Estimation Procedure)" and "Seasonal Adjustment" in any issue of Employment and Earnings.

## Comparison of CPS Estimates from Microdata Files with Published Sources

	Civilian Noninstitutional Population	Civilian Labor Force	Employed	Unemployed	Not in Labor Force

## ATTACHMENT 3

### OVERVIEW

#### September 2000 Food Security Survey

##### **General**

Census Bureau staff conducted the September 2000 Food Security Survey as a supplement to that month's Current Population Survey (CPS). The CPS is a monthly labor force survey in which interviews are conducted in approximately 50,000 households across the Nation. September 2000 was the sixth time this survey was conducted. Previous collections were conducted in April 1995, September 1996, April 1997, August 1998, and April 1999. Attachment 9 contains the Food Security supplement questions asked of all interviewed households in September 2000.

Attachment 2 comprises a description of the CPS entitled "Overview--Current Population Survey." A description of the September 2000 Food Security Survey follows.

##### **Data Collection**

The food security questions were asked of all interviewed households, as appropriate. Items S1A through S8 dealt with food expenditures. Items S9 through SP9 dealt with food program participation. Items SS1 through SSHM5 dealt with concerns about food sufficiency. Items SC1 through SC4 dealt with ways of coping with not having enough food. The last series of questions, S10 through S12, asked for the minimum amount needed to spend on food to meet the needs of the household.

These items are being used by the supplement sponsor to produce a scaled measure of food insecurity. RESPONSES TO INDIVIDUAL ITEMS IN THIS SUPPLEMENT ARE NOT MEANINGFUL MEASURES OF FOOD INSUFFICIENCY AND SHOULD NOT BE USED IN SUCH A MANNER.

##### **Data Processing**

The data processing involved editing the September supplement data. This process is described below.

**Edits and Allocations.** The data processing involved a consistency edit of all supplement items. The consistency edit ensured that the entries within an individual record followed the correct skip pattern. Items with missing entries were assigned values, if appropriate.

The values for each variable are defined in the supplement record layout (Attachment 8).

**Weighting.** There is a supplement weight associated with the September 2000 Food Security supplement. Use this weight for tallying the supplement items.

## September 2000 CPS/Food Security Computer File

**CPS Labor Force Data.** The September 2000 CPS file contains 134,856 records. Each record contains 1,115 characters. Attachment 8 contains the variable name, character size, location on record, universe, and the values of the variables.

The variable PRPERTYP (located in positions 161-162 on the CPS Basic Items Record Layout) determines the type of person as follows:

### PRPERTYP

- 1 = Child household member (0-14 years old)
- 2 = Adult civilian household member (15+ years old)
- 3 = Adult Armed Forces household member (15+ years old)

The variable HRINTSTA (located in positions 57-58 on the CPS Basic Items Record Layout) determines the interview status of the household.

### HRINTSTA

- 1 = Interview
- 2 = Type A Noninterview (These records represent households that were eligible for the September 2000 CPS interview but were not interviewed because no one was home, household members were temporarily absent, etc.)
- 3 = Type B Noninterview (These records represent sample addresses determined to be ineligible for the CPS by virtue of being vacant, demolished, nonresidential, etc.)
- 4 = Type C Noninterview (See explanation for Type B above)

By combining the values of PRPERTYP (1-3) and HRINTSTA (2-4) the number of records can be determined.

The values of PRPERTYP are:

	<u>Unweighted Counts</u>
1 = (Child)	26,632
2 = (Adult Civilian, 15+)	94,724
3 = (Adult, Armed Forces)	302

The values of HRINTSTA are:

2 = Type A Noninterview	3,552
3 = Type B Noninterview	9,123
4 = Type C Noninterview	523

### **September 2000 Food Security Supplement Data**

The September 2000 supplement data for the household is located in character positions 857-1115. (See Attachment 8.)

### **Tallying the September 2000 Food Security Supplement File**

The September 2000 supplement universe represented the full CPS sample comprised of all interviewed CPS households.

### **Unweighted Counts**

Attachment 14 is a tally listing of unweighted counts. Use these counts to ensure that the file is being properly accessed.

## ATTACHMENT 4

### GLOSSARY

#### Current Population Survey

**Age**-Age classification is based on the age of the person at his/her last birthday. The adult universe (i.e., population of marriageable age) is comprised of persons 15 years and over for CPS labor force data.

**Allocation Flag**-Each edited item has a corresponding allocation flag indicating the nature of the edit. See the attachment on allocation flags for more information. The second character of the item name is always "X".

**Armed Forces**-Demographic information for Armed Forces members (enumerated in off-base housing or on-base with their families) is included on the CPS data files. No labor force information is collected of Armed Forces members in any month. In March, supplemental data on income are included for Armed Forces members. This is the only month that non-demographic information is included for Armed Forces members.

**Civilian Labor Force**-(See Labor Force.)

**Class of Worker**-This refers to the broad classification of the person's employer. These broad classifications for current jobs are:

- 1) Federal government
- 2) State government
- 3) Local government
- 4) Private industry (including self-employed, incorporated)
- 5) Self-employed (not incorporated)
- 6) Working without pay

**Domain**-The domain for an item is a list or range of its possible values. Note that all unedited items have possible values of -1 (blank), -2 (don't know), and -3 (refused). Since all items have these possible values, they are not shown as valid entries for each item.

**Duration of Unemployment**-Duration of unemployment represents the length of time (through the current survey week) during which persons classified as unemployed are continuously looking for work. For persons on layoff, duration of unemployment represents the number of full weeks since the termination of their most recent employment. A period of two weeks or more during which a person is employed or ceased looking for work is considered to break the continuity of the present period of seeking work.

**Earners, Number of**-The file includes all persons 15 years old and over in the household with \$1 or more in wages and salaries, or \$1 or more of a loss in net income from farm or nonfarm self-employment during the preceding year.

**Edited item**-An edited item is allocated or imputed by the processing system. In most cases this means allocating a value where the unedited item contains a value of blank, "don't know", or "refused". The second character of the item name is always "E".

An edited version of an item exists only if that item is processed through the edits. If the edits never deal with a particular item, then that item only has an unedited version.

Since the instrument enforces skip patterns and consistency between many items, the edits are left mainly with the job of allocating missing values. Also, since an interviewer is allowed to "back up" in the interview, there may be "off-path" items filled in the unedited data. The edits also blank these off-path items if an edited version of the items exists.

**Education**-(See Level of School Completed.)

**Employed**-(See Labor Force.)

**Family**-A family is a group of two persons or more (one of whom is the householder) residing together and related by birth, marriage, or adoption. All such persons (including related subfamily members) are considered as members of one family. Beginning with the 1980 CPS, unrelated subfamilies (referred to in the past as secondary families) are no longer included in the count of families, nor are the members of unrelated subfamilies included in the count of family members.

**Family Household**-A family household is a household maintained by a family (as defined above), and may include among the household members any unrelated persons (unrelated subfamily members and/or secondary individuals) who may be residing there. The number of family households is equal to the number of families. The count of family household members differs from the count of family members, however, in that the family household members include all persons living in the household, whereas family members include only the householder and his/her relatives. (See the definition of Family).

**Family Weight**-This weight is used only for tallying family characteristics. In March, the weight on the family record is the March supplement weight of the householder or reference person.

**Final Weight**-Used in tabulating labor force items in all months, including March. The final weight is controlled to independent estimates for:

- 1) States
- 2) Origin, Sex, and Age
- 3) Age, Race, and Sex

This weight should not be used when tabulating March supplement data.

**Full-Time Worker**-Persons on full-time schedules include persons working 35 hours or more, persons who worked 1-34 hours for noneconomic reasons (e.g., illness) and usually work full-time, and persons "with a job but not at work" who usually work full-time.

**Group Quarters**-Group quarters are noninstitutional living arrangements for groups not living in conventional housing units or groups living in housing units containing nine or more persons unrelated to the person in charge.

**Head Versus Householder**-Beginning with the March 1980 CPS, the Bureau of the Census discontinued the use of the terms "head of household" and "head of family." Instead, the terms "householder" and "family householder" are used.

**Highest Grade of School Attended**-(See Level of School Completed.)

**Hispanic Origin**-Persons of Hispanic origin in this file are determined on the basis of a question that asked for self-identification of the person's origin or descent. Respondents are asked to select their origin (or the origin of some other household member) from a "flash card" listing ethnic origins. Persons of Hispanic origin, in particular, are those who indicated that their origin was Mexican-American, Chicano, Mexican, Mexicano, Puerto Rican, Cuban, Central or South American, or other Hispanic.

**Hours of Work**-Hours of work statistics relate to the actual number of hours worked during the survey week. For example, a person who normally works 40 hours a week but who is off on the Veterans Day holiday is reported as working 32 hours even though he is paid for the holiday.

For persons working in more than one job, the figures related to the number of hours worked in all jobs during the week. However, all the hours are credited to the major job.

**Household**-A household consists of all the persons who occupy a house, an apartment, or other group of rooms, or a room, which constitutes a housing unit. A group of rooms or a single room is regarded as a housing unit when it is occupied as separate living quarters; that is, when the occupants do not live and eat with any other person in the structure, and when there is direct access from the outside or through a common hall. The count of households excludes persons living in group quarters, such as rooming houses, military barracks, and institutions. Inmates of institutions (mental hospitals, rest homes, correctional institutions, etc.) are not included in the survey.

**Household Weight**-The household weight is used for tallying household characteristics. In March, the household weight is the March Supplement weight of the householder.

**Householder**-The householder refers to the person (or one of the persons) in whose name the housing unit is owned or rented (maintained) or, if there is no such person, any adult member, excluding roomers, boarders, or paid employees. If the house is owned or rented jointly by a married couple, the householder may be either the husband or the wife. The person designated as the householder is the "reference person" to whom the relationship of all other household members, if any, is recorded.

**Householder With No Other Relatives in Household**-A householder who has no relatives living in the household. This is the entry for a person living alone. Another example is the designated householder of an apartment shared by two or more unrelated individuals.

**Householder With Other Relatives (Including Spouse) in Household**-The person designated as householder if he/she has one or more relatives (including spouse) living in the household.

**Industry, Occupation, and Class of Worker (I&O)-Current Job** (basic data)-For the employed, current job is the job held in the reference week (the week before the survey). Persons with two or more jobs are classified in the job at which they worked the most hours during the reference week. The unemployed are classified according to their latest full-time job lasting two or more weeks or by the job (either full-time or part-time). The I & O questions are also asked of persons not in the labor force who are in the fourth and eighth months in sample and who have worked in the last five years.

**Job Seekers**-All unemployed persons who made specific efforts to find a job sometime during the 4-week period preceding the survey week.

**Longitudinal Weight**-Used for gross flows analysis. Only found on adult records matched from month to month.

**PEMLR-(Major Labor Force Recode)**-This classification is available for each civilian 15 years old and over according to his/her responses to the monthly (basic) labor force items.

**Labor Force**-Persons are classified as in the labor force if they are employed, unemployed, or in the Armed Forces during the survey week. The "civilian labor force" includes all civilians classified as employed or unemployed. The file includes labor force data for civilians age 15 and over. However, the official definition of the civilian labor force is age 16 and over.

1. *Employed*

Employed persons comprise (1) all civilians who, during the survey week, do any work at all as paid employees or in their own business or profession, or on their own farm, or who work 15 hours or more as unpaid workers on a farm in a business operated by a member of the family; and (2) all those who have jobs but who are not working because of illness, bad weather, vacation, or labor-management dispute, or because they are taking time off for personal reasons, whether or not they are seeking other jobs. These persons would have a Monthly Labor Force Recode (MLR) of 1 or 2 respectively in characters 180-181 of the person record which designates "at work" and "with a job, but not at work." Each employed person is counted only once. Those persons who held more than one job are counted in the job at which they worked the greatest number of hours during the survey week. If they worked an equal number of hours at more than one job, they are counted at the job they held the longest.

2. *Unemployed*

Unemployed persons are those civilians who, during the survey week, have no employment but are available for work, and (1) have engaged in any specific job seeking activity within the past 4 weeks such as registering at a public or private employment office, meeting with prospective employers, checking with friends or relatives, placing or answering advertisements, writing letters of application, or being on a union or professional register; (2) are waiting to be called back to a job from which they had been laid off; or (3) are waiting to report to a new wage or salary job within 30 days. These persons would have an MLR code of 3 or 4 in characters 180-181 of the person record. The unemployed includes job leavers, job losers, new job entrants, and job reentrants.

a. *Job Leavers*

Persons who quit or otherwise terminate their employment voluntarily and immediately begin looking for work.

b. *Job Losers*

Persons whose employment ends involuntarily, who immediately begin looking for work, and those persons who are already on layoff.

c. *New Job Entrants*

Persons who never worked at a full-time job lasting two weeks or longer.

d. *Job Reentrants*

Persons who previously worked at a full-time job lasting two weeks or longer but are out of the labor force prior to beginning to look for work.

Finally, it should be noted that the unemployment rate represents the number of persons unemployed as a percent of the civilian labor force 16 years old and over. This measure can also be computed for groups within the labor force classified by sex, age, marital status, race, etc. The job loser, job leaver, reentrant, and new entrant rates are each calculated as a percent of the civilian labor force 16 years old and over; the sum of the rates for the four groups thus equals the total unemployment rate.

3. *Not in Labor Force*

All civilians 15 years old and over who are not classified as employed or unemployed. These persons are further classified by major activity: retired, unable to work because of long-term physical or mental illness, and other. The "other" group includes, for the most part, students and persons keeping house. Persons who report doing unpaid work in a family farm or business for less than 15 hours are also classified as not in the labor force.

For persons not in the labor force, data on previous work experience, intentions to seek work again, desire for a job at the time of interview, and reasons for not looking for work are asked only in those households that are in the fourth and eighth months of the sample, i.e., the "outgoing" groups, those which had been in the sample for three previous months and would not be in for the subsequent month.

Persons classified as NILF have an MLR code of 5-7 in characters 180-181 of the person record.

**Layoff**-A person who is unemployed but expects to be called back to a specific job. If he/she expects to be called back within 30 days, it is considered a temporary layoff; otherwise, it is an indefinite layoff.

**Level of School Completed/Degree Received**-These data changed beginning with the January 1992 file. A new question, "What is the highest level of school ... has completed or the highest degree ... has received?" replaced the old "Highest grade attended" and "Year completed" questions. The new question provides more accurate data on the degree status of college students. Educational attainment applies only to progress in "regular" school. Such schools include graded public, private, and parochial elementary and high schools (both junior and senior high), colleges, universities, and professional schools, whether day schools or night schools. Thus, regular schooling is that which may advance a person toward an elementary school certificate or high school diploma, or a college, university, or professional school degree. Schooling in other than regular schools is counted only if the credits obtained are regarded as transferable to a school in the regular school system.

**Looking for Work**-A person who is trying to get work or trying to establish a business or profession.

**Marital Status**-The marital status classification identifies four major categories: single (never married), married, widowed, and divorced. These terms refer to the marital status at the time of enumeration.

The category "married" is further divided into "married, civilian spouse present," "married, Armed Force spouse present," "married, spouse absent," "married, Armed Force spouse absent," and "separated." A person is classified as "married, spouse present" if the husband or wife is reported as a member of the household even though he or she may be temporarily absent on business or on vacation, visiting, in a hospital, etc., at the time of the enumeration. Persons reported as "separated" included those with legal separations, those living apart with intentions of obtaining a divorce, and other persons permanently or temporarily estranged from their spouses because of marital discord.

For the purpose of this file, the group "other marital status" includes "widowed and divorced," "separated," and "other married, spouse absent."

**Month-In-Sample**-The term is defined as the number of times a unit is interviewed. Each unit is interviewed eight times during the life of the sample.

**Never Worked**-A person who has never held a full-time civilian job lasting two consecutive weeks or more.

**Nonfamily Householder**-A nonfamily householder (formerly called a primary individual) is a person maintaining a household while living alone or with nonrelatives only.

**Nonworker**-A person who does not do any work in the calendar year preceding the survey.

**Nonrelative of Householder With No Own Relatives in Household**-A nonrelative of the householder who has no relative(s) of his own in the household. This category includes such nonrelatives as a foster child, a ward, a lodger, a servant, or a hired hand, who has no relatives of his own living with him in the household.

**Nonrelative of Householder With Own Relatives (Including Spouse)in Household**-Any household member who is not related to the householder but has relatives of his own in the household; for example, a lodger, his spouse, and their son.

**Other Relative of Householder**-Any relative of the householder other than his spouse or child; for example, father, mother, grandson, daughter-in-law, etc.

**Out Variable**-An instrument-created item that stores the results of another item.

**Own Child**-A child related by birth, marriage, or adoption to the family householder.

**Part-Time, Economic Reasons**-The item includes slack work, material shortages, repairs to plant or equipment, start or termination of job during the week, and inability to find full-time work. (See also Full-Time Worker.)

**Part-Time, Other Reasons**-The item includes labor dispute, bad weather, own illness, vacation, demands of home housework, school, no desire for full-time work, and full-time worker only during peak season.

**Part-Time Work**-Persons who work between 1 and 34 hours are designated as working "part-time" in the current job held during the reference week. For the March supplement, a person is classified as having worked part-time during the preceding calendar year if he worked less than 35 hours per week in a majority of the weeks in which he

worked during the year. Conversely, he is classified as having worked full-time if he worked 35 hours or more per week during a majority of the weeks in which he worked.

**Part-Year Work**-Part-year work is classified as less than 50 weeks' work.

**Population Coverage**-Population coverage includes the civilian population of the United States plus approximately 820,000 members of the Armed Forces in the United States living off post or with their families on post but excludes all other members of the Armed Forces. This file excludes inmates of institutions. The labor force and work experience data are not collected for Armed Forces members.

**Processing Recode**-An item calculated by the processing system from a combination of other items in the database. The second character of the item name is always "R".

**Race**-The population is divided into three groups on the basis of race: White, Black, and Other races. The last category includes Indians, Japanese, Chinese, and any other race except White and Black. In most of the published tables, "Other Races" are shown in total population.

**Reentrants**-Persons who previously worked at a full-time job lasting two weeks or longer but who are out of the labor force prior to beginning to look for work.

**Related Children**-Related children in a family include own children and all other children in the household who are related to the householder by birth, marriage, or adoption. For each type of family unit identified in the CPS, the count of own children under 18 years old is limited to single (never married) children; however, "own children under 25" and "own children of any age," include all children regardless of marital status. The totals include never-married children living away from home in college dormitories.

**Related Subfamily**-A related subfamily is a married couple with or without children, or one parent with one or more own single (never married) children under 18 years old, living in a household and related to, but not including, the householder or spouse. The most common example of a related subfamily is a young married couple sharing the home of the husband's or wife's parents. The number of related subfamilies is not included in the number of families.

**School**-A person who spent most of his time during the survey week attending any kind of public or private school, including trade or vocational schools in which students receive no compensation in money or kind.

**Secondary Individual**-A secondary individual is a person in a household or group quarters such as a guest, roomer, boarder, or resident employee (excluding nonfamily households and inmates of institutions) who is not related to any other person in the household or group quarters.

**Self-Employed**-Self-employed persons are those who work for profit or fees in their own business, profession or trade, or operate a farm.

**Stretches of Unemployment**-A continuous stretch is one that is not interrupted by the person getting a job or leaving the labor market to go to school, to keep house, etc. A period of two weeks or more during which a person is employed or ceased looking for work is considered to break the continuity of the period of seeking work.

**Unable to Work**-A person is classified as unable to work because of long-term physical or mental illness, lasting six months or longer.

**Unedited item**-An item that is produced by the CAPI instrument, either collected during the interview or created by the CAPI instrument. The second character of the item name is always "U".

**Unemployed**-(See Labor Force.)

**Unpaid Family Workers**-Unpaid family workers are persons working without pay for 15 hours a week or more on a farm or in a business operated by a member of the household to whom they are related by birth or marriage.

**Unrelated Individuals**-Unrelated individuals are persons of any age (other than inmates of institutions) who are not living with any relatives. An unrelated individual may be (1) a nonfamily householder living alone or with nonrelatives only, (2) a roomer, boarder, or resident employee with no relatives in the household, or (3) a group quarters member who has no relatives living with him/her. Thus, a widow who occupies her house alone or with one or more other persons not related to her, a roomer not related to anyone else in the housing unit, a maid living as a member of her employer's household but with no relatives in the household, and a resident staff member in a hospital living apart from any relatives are all examples of unrelated individuals.

**Unrelated Subfamily**-An unrelated subfamily is a family that does not include among its members the householder and relatives of the householder. Members of unrelated subfamilies may include persons such as guests, roomers, boarders, or resident employees and their relatives living in a household. The number of unrelated subfamily members is included in the number of household members but is not included in the count of family members.

Persons living with relatives in group quarters were formerly considered as members of families. However, the number of such unrelated subfamilies became so small (37,000 in 1967) that beginning with the data for 1968 (and beginning with the census data for 1960) the Bureau of the Census includes persons in these unrelated subfamilies in the count of secondary individuals.

**Veteran Status**-If a male served at any time during the four major wars of this century, the code for the most recent wartime service is entered. The following codes are used:

- 0 Children under 15
- 1 Vietnam era
- 2 Korean
- 3 WWI
- 4 WWII
- 5 Other Service
- 6 Nonveteran

**Wage and Salary Workers**-Wage and salary workers receive wages, salary, commission, tips, or pay in kind from a private employer or from a governmental unit. Also included are persons who are self-employed in an incorporated business.

**Workers**-(See Labor Force--Employed.)

**Work Experience**-Includes those persons who during the preceding calendar year did any work for pay or profit or worked without pay on a family-operated farm or business at any time during the year, on a part-time or full-time basis.

**Year-Round Full-Time Worker**-A year-round full-time worker is one who usually worked 35 hours or more per week for 50 weeks or more during the preceding calendar year.

## ATTACHMENT 5

### HOW TO USE THE RECORD LAYOUT

Data users familiar with the CPS data files in prior years will see many similarities between the format of this file and those files released before January 1994. As in the past, there are numeric locations on the file which correspond to each variable. There is only one record layout which contains the variables for children, adults, and armed forces members. In prior years, each type of person had a separate record layout.

#### Item Naming Conventions

Ē The first character of each variable name is one of the following:

H - Household item

G - Geography item

\* P - Person item (includes adult items, child items, and armed forces items)

\* There is no need to distinguish adult, child, and armed forces items in the variable names in the new system. The recode **PRPERTYP** (located in positions 161-162) tells you what category the person is in.

Ē The second character of each variable name is one of the following:

E - Edited item

U - Unedited item

X - Allocation flag (see Attachment 16 for more information)

W - Weight

R - Recode

Ē The remaining characters describe the variable.

Ē For multiple entry items, the file contains a separate variable for each possible response. Each item has the same descriptive name but a number is added as the last digit. For example, Question 22A allows separate entries for up to 6 job search methods. The item names are **PELKM1** (this item is edited), **PULKM2**, (this item is unedited), **PULKM3**, etc. These items are located in positions 296-307 of the record layout.

## ATTACHMENT 6

### CHANGES TO CPS PUBLIC USE FILES EFFECTIVE SEPTEMBER 1995

Effective September 1995, a number of revisions were made to the CPS public use files. Most were related to the recent phase-in of a new sample based on the results of the 1990 Census. This phase-in was completed in June 1995. Part of this changeover was the use of new metropolitan area definitions based on the results of the 1990 Decennial Census in selecting the new sample. As such, beginning in September 1995, metropolitan area definitions effective June 30, 1993 will be identified subject to confidentiality restrictions on the CPS public use files. The new variables and their locations are given below.

Concurrent with this revision, several other changes were made to the CPS public use files. The most important of these was the creation of a new set of household identification numbers for the September forward files. Bureau of the Census confidentiality restrictions require that we preclude the possibility of matching any households from data files before and after the September 1995 date. In conjunction with this, the Bureau revised its sample household numbering scheme. These two considerations resulted in the creation of a 15 character household identification number. The location of this number is now in characters 1-15 (previously 1-12) of all non-March files and characters 344-358 (previously 320-331) on the March files.

Also, on non-March files, the following variables changed locations:

Name	Old	Location	New
HUINNTYP	13-14		16-17
HULENSEC	15-19		109-113

The other change involves the suppression of several 3-digit occupation codes. Specifically, Codes 003 and 016 (legislators and postmasters, respectively) are collapsed into Code 022, (managers and administrators, N.E.C.) Also, Code 179, (judges) was collapsed into Code 178, (lawyers). None of the changes affected any of the occupation recodes.

\*\*\*\*\*

\* Additional valid entry for edited items: -1 (blank) \*

\*\*\*\*\*

HES1A	2	These first questions are about all the places at which you bought food last week. By last week, I mean from Sunday through Saturday. First, did (you/anyone in your household) shop for food at a supermarket or grocery store last week?	857-858
-------	---	--	---------

EDITED UNIVERSE:

HRSUPINT = 1

VALID ENTRIES:

1	Yes
2	No
-2	Don't Know
-3	Refused

<u>NAME</u>	<u>SIZE</u>	<u>DESCRIPTION</u>	<u>LOCATION</u>
HES1B	2	Think about other places where people buy food, such as meat markets, produce stands, bakeries, warehouse clubs, and convenience stores. Did (you/anyone in your household) buy food from any stores such as these last week?	859-860

EDITED UNIVERSE:

HES1A = 1, 2, -2 or -3

VALID ENTRIES:

- 1 Yes
- 2 No
- 2 Don't Know
- 3 Refused

HES1C	2	Last week, did (you/anyone in your household) buy food at a restaurant, fast food place, cafeteria, or vending machine? (Include any children who may have bought food at the school cafeteria.)	861-862
-------	---	---	---------

EDITED UNIVERSE:

HES1B = 1, 2, -2 or -3

VALID ENTRIES:

- 1 Yes
- 2 No
- 2 Don't Know
- 3 Refused

<u>NAME</u>	<u>SIZE</u>	<u>DESCRIPTION</u>	<u>LOCATION</u>
HES1D	2	Did (you/anyone in your household) buy food from any other kind of place last week?	863-864

EDITED UNIVERSE:

HES1C = 1, 2, -2 or -3

VALID ENTRIES:

- 1 Yes
- 2 No
- 2 Don't Know
- 3 Refused

HES2O	3	Out variable that represents the amount of money spent by the household on purchases at super-markets and grocery stores. Created from HUS2, HUS2CK1, HUS2COR.	865-867
-------	---	--	---------

EDITED UNIVERSE:

HES1A = 1

VALID ENTRIES:

- 0-999
- 2 Don't Know
- 3 Refused
- 9 No Response

<u>NAME</u>	<u>SIZE</u>	<u>DESCRIPTION</u>	<u>LOCATION</u>
HES3O	3	Out variable for amount of money spent on nonfood items at supermarkets and grocery stores. Created from HUS3, HUS3CK2, or HUS3COR.	868-870

EDITED UNIVERSE:

HES2O = ENTRY GREATER THAN OR EQUAL TO 0

VALID ENTRIES:

0-999

-2 Don't Know

-3 Refused

-9 No Response

HES4O	3	Out variable that represent amount spent by the household at stores other than supermarkets and grocery stores--like meat markets, produce stands, bakeries, etc. Created from HUS4, HUS4CK1, HUS4COR.	871-873
-------	---	--	---------

EDITED UNIVERSE:

HES1B = 1

Set POOR = 2.

#### I. FOOD COSTS

**[LEAD] This month we are asking some questions about food used in your household and the ways you are managing to meet your food needs.**

#### I. FOOD EXPENDITURES

S1A If more than one hmem=1 has an AGE equal to or greater than 10 fill with second option else fill with first option.

**These first questions are about all the places at which you bought food last week. By last week, I mean from Sunday through Saturday.**

**First, did (you/anyone in your household) shop for food at a supermarket or grocery store last week?**

<1> Yes

<2> No

Blind <D> or <R>

SCOMPL If onpath entry, D or R in S1A then set SCOMPL=1 otherwise set COMPL=0

S1B If more than one hhmem=1 has an AGE equal to or greater than 10 fill with second option else fill with first option.

**Think about other places where people buy food, such as meat markets, produce stands, bakeries, warehouse clubs, and convenience stores. Did (you/anyone in your household) buy food from any stores such as these last week?**

<1> Yes

<2> No

Blind <D> or <R>

S1C If more than one hhmem=1 has an AGE equal to or greater than 6 fill with second option else fill with first option in first parenthetical.

If one or more hhmem=1 with AGE between 6 and 18 then fill second parenthetical with first option else fill with second option.

**Last week, did (you/anyone in your household) buy food at a restaurant, fast food place, cafeteria, or vending machine? (Include any children who may have bought food at the school cafeteria).**

<1> Yes

<2> No

Blind <D> or <R>

S1D If more than one hhmem=1 has an AGE equal to or greater than 10 fill with second option else fill with first option.

**Did (you/anyone in your household) buy food from any other kind of place last week?**

<1> Yes

<2> No

Blind <D> or <R>

SCKA If onpath entry of <2>, <D> or <R> in S1A, S1B, S1C and S1D then skip to S8 else go to Slead.

Slead **Now I'm going to ask you about the ACTUAL amount you spent on food last week in all the places where you bought food. Then, since last week may have been unusual for you, I will ask about the amount you USUALLY spend.**

<P> Proceed

SCKB If onpath entry of <1> in S1A then ask S2 else skip to SCKC.

S2 If more than one hhmem=1 has an AGE equal to or greater than 10 fill with second option else fill with first option.

If POOR=2 then fill second parenthetical with first option else fill with second option.

**How much did (you/your household) ACTUALLY spend at supermarkets and grocery stores last week (including any purchases made with food stamps)?**

ENTER X IF RESPONDENT CAN ONLY GIVE RANGE

\$\_\_\_.00

S2CK If entry of X in S2 goto S2CK1 else store entry in S2O. If S2O is between \$1.00 and \$450.00 go to S3 else if S2O is equal to D or R go to SCKC otherwise go to S2RC.

S2CK1 \*\*\*\*\*DO NOT READ RESPONDENT\*\*\*\*\*

Enter range reported by respondent

\_\_\_\_.00 to \_\_\_\_.00

S2RG Add the entries in S2CK1 and divide by 2. Store the answer in S2O. If S2O is between \$1.00 and \$450.00 go to S3 otherwise go to S2RC.

S2RC \*\*\*\*\*DO NOT ASK THE RESPONDENT\*\*\*\*\*

**AMOUNT SPENT RECORDED AS: (entry in S2O) IS THIS ENTRY CORRECT?**

- <1> YES (go to S3)
- <2> NO (go to S2COR)

S2COR \*\*\*\*\*DO NOT ASK THE RESPONDENT\*\*\*\*\*

INCORRECT ENTRY WAS RECORDED AS: (entry in S2O)  
CORRECT ENTRY IS:

\$\_\_\_.00 (store entry in S2O)

S3 If more than one hmem=1 has an AGE equal to or greater than 10 fill first parenthetical with second option else fill with first.

**How much of the (fill with S2O) was for non-food items, such as pet food, paper products, detergents, or cleaning supplies?**

ENTER X IF RESPONDENT CAN ONLY GIVE RANGE

\$\_\_\_.00

Blind <D> or <R>

S3CK If entry of X in S3 goto S3CK2 else store entry in S3O. Do not allow entry in S3O to be greater than entry in S2O. If S3O is between \$1.00 and \$100.00 or <D> or <R> go to SCKC otherwise go to S3RC.

S3CK2 \*\*\*\*\*DO NOT READ TO RESPONDENT\*\*\*\*\*

Enter range reported by respondent

\_\_\_.00 to \_\_\_.00

S3RG Add the entries in S3CK2 and divide by 2. Store the answer in S3O. Do not allow entry in S3O to be greater than entry in S2O. If S3O is between \$1.00 and \$100.00 go to SCKC otherwise go to S3RC.

S3RC \*\*\*\*\*DO NOT ASK THE RESPONDENT\*\*\*\*\*

AMOUNT SPENT RECORDED AS: (entry in S3O)  
IS THIS ENTRY CORRECT?

<1> YES (go to SCKC)

<2> NO (go to S3COR)

S3COR \*\*\*\*\*DO NOT ASK THE RESPONDENT\*\*\*\*\*

INCORRECT ENTRY WAS RECORDED AS: (entry in S3O)  
CORRECT ENTRY IS:

\$\_\_\_.00 (store entry in S3O)

Do not allow entry in S3O to be greater than entry in S2O.

SCKC If onpath entry of <1> in S1B then ask S4 else skip to SCKD.

S4 If more than one hmem=1 has an AGE equal to or greater than 10 fill with second option else fill with first option.

If POOR=2 then fill second parenthetical with first option else fill with second option.

**How much did (you/your household) spend at stores such as meat markets, produce stands, bakeries, warehouse clubs, and convenience stores last week (including any purchases made with food stamps)?**

ENTER X IF RESPONDENT CAN ONLY GIVE RANGE

\$\_\_\_.00

Blind <D> or <R> go to SCKD

S4CK If entry of X in S4 go to S4CK1 else store entry in S4O. If S4O is between \$1.00 and \$150.00 go to S5 else if S4O is D or R go to SCKD otherwise go to S4RC.

S4CK1 \*\*\*\*\*DO NOT READ TO RESPONDENT\*\*\*\*\*

Enter range reported by respondent

\_\_\_ .00 to \_\_\_ .00

S4RG Add the entries in S4CK1 and divide by 2. Store the answer in S4O. If S4O is between 1.00 and \$150.00 go to S5 otherwise go to S4RC.

S4RC \*\*\*\*\*DO NOT READ TO RESPONDENT\*\*\*\*\*

AMOUNT SPENT RECORDED AS: (entry in S4O)  
IS THIS ENTRY CORRECT?

<1> Yes (go to S5)

<2> No (go to S4COR)

S4COR \*\*\*\*\*DO NOT READ TO RESPONDENT\*\*\*\*\*

INCORRECT ENTRY WAS RECORDED AS: (entry in S4O)  
CORRECT ENTRY IS:

\$\_\_\_.00 (store entry in S4O)

5 **How much of the \$(fill with S4O) was for nonfood items, such as pet food, paper products, detergents, or cleaning supplies?**

ENTER X IF RESPONDENT CAN ONLY GIVE RANGE

\$\_\_\_.00

Blind <D> or <R>

S5CK If entry of X in S5 goto S5CK1 else store entry in S5O. Do not allow entry in S5O to be greater than entry in S4O. If S5O is between \$1.00 and \$100.00 or D or R go to SCKD else go to S5RC

S5CK1 \*\*\*\*\*DO NOT ASK THE RESPONDENT\*\*\*\*\*

Enter range reported by respondent

\_\_\_ .00 to \_\_\_ .00

S5RG Add the entries in S5CK1 and divide by 2. Store the answer in S5O. Do not allow entry in S5O to be greater than entry in S4O. If S5O is between \$1.00 and \$100.00 go to SCKD else go to S5RC.

S5RC \*\*\*\*\*DO NOT ASK THE RESPONDENT\*\*\*\*\*

AMOUNT SPENT RECORDED AS : (entry in S5O)  
IS THIS ENTRY CORRECT?

<1> Yes (go to SCKD)

<2> No (go to S5COR)

S5COR \*\*\*\*\*DO NOT ASK THE RESPONDENT\*\*\*\*\*

INCORRECT ENTRY WAS RECORDED AS: (entry in S5O) CORRECT ENTRY IS:

\$\_\_\_.00 (store entry in S5O)

Do not allow entry in S5O to be greater than entry in S4O.

SCKD If entry of <1> in S1C then ask S6 else skip to SCKE

S6 If more than one hmem=1 has an AGE equal to or greater than 10 fill with second option else fill with first option.

**How much did (you/your household) spend for food at restaurants, fast food places, cafeterias, and vending machines last week?**

ENTER X IF RESPONDENT CAN ONLY GIVE RANGE

\$\_\_\_.00

Blind <D> or <R>

S6CK If entry of X in S6 goto S6CK1 else store entry in S6O. If S6O is between \$1.00 and \$200.00 or D or R go to SCKE else go to S6RC.

S6CK1 \*\*\*\*\*DO NOT ASK THE RESPONDENT\*\*\*\*\*

Enter range reported by respondent

\_\_\_ .00 to \_\_\_ .00

S6RG Add the entries in S6CK1 and divide by 2. Store the answer in S6O. If S6O is between \$1.00 and \$200.00 go to SCKE else go to S6RC.

S6RC \*\*\*\*\*DO NOT ASK THE RESPONDENT\*\*\*\*\*

AMOUNT SPENT RECORDED AS : (entry in S6O)  
IS THIS ENTRY CORRECT?

- <1> Yes (go to SCKE)
- <2> No (go to S6COR)

S6COR \*\*\*\*\*DO NOT ASK THE RESPONDENT\*\*\*\*\*  
INCORRECT ENTRY WAS RECORDED AS: (entry in S6O) CORRECT ENTRY IS:

\$\_\_\_.00 (store entry in S6O)

SCKE If entry of <1> in S1D then ask S7 else skip to SCKF.

S7 If more than one hmem=1 has an AGE equal to or greater than 10 fill with second option else fill with first option.

**How much did (you/your household) spend for food at any other kind of place last week?**

ENTER X IF RESPONDENT CAN ONLY GIVE RANGE

\$\_\_\_.00

Blind <D> or <R>

S7CK If entry of X in S7 goto S7CK1 else store entry in S7O. If S7O is between \$1.00 and \$150.00 or equal to D or R goto SCKF otherwise go to S7RC.

S7CK1 \*\*\*\*\*DO NOT READ TO RESPONDENT\*\*\*\*\*

Enter range reported by respondent

\_\_\_ .00 to \_\_\_ .00

S7RG Add the entries in S7CK1 and divide by 2. Store the answer in S7O. If S7O is between \$1.00 and \$150.00 go to SCKF otherwise go to S7RC.

S7RC

\*\*\*\*\*DO NOT ASK THE RESPONDENT\*\*\*\*\*

AMOUNT SPENT RECORDED AS: (entry in S7O)  
IS THIS ENTRY CORRECT?

<1> YES (go to SCKF)

<2> NO (go to S7COR)

S7COR

\*\*\*\*\*DO NOT ASK THE RESPONDENT\*\*\*\*\*

INCORRECT ENTRY WAS RECORDED AS: (entry in S7O)  
CORRECT ENTRY IS:

\$\_\_\_.00 (store entry in S7O)

SCKF

If any amounts 0 or over in S2O, S4O, S6O or S7O then add together and store in SFDAMT. If any amounts 0 or over in S3O or S5O, then add these together and store in SNFAMT. Subtract SNFAMT from SFDAMT and store the result in S8O.

S8

If (entry of D or R in S2, S4, S6, and S7) or (S8O equals 0) or (onpath entry of <2>, <D>, or <R> in S1A, S1B, S1C and S1D) then fill first parenthetical with first option else fill with second option.

If more than one hmem=1 has an AGE equal to or greater than 10 fill remaining parentheticals with second option else fill with first.

If POOR= 2 fill last parenthetical with first option else fill with second option.

**(Let's see, it seems that (you/your household) did not buy any food last week. Let's see, (you/your household) spent about (fill with S8O) on food last week.) Now think about how much (you/your household) USUALLY (spend/spends). How much (do you/does your household) USUALLY spend on food at all the different places we've been talking about in a week? (Please include any purchases made with food stamps). Do not include nonfood items such as pet food, paper products, detergent or cleaning supplies.**

ENTER X IF RESPONDENT CAN ONLY GIVE A RANGE

\$\_\_\_\_.00

Blind <D> or <R>

8CK If entry of X in S8 goto S8CK1 else store entry in S8OU. If S8OU is between \$1.00 and \$450.00 or equal to D or R go to S9 otherwise go to S8RC.

S8CK1 \*\*\*\*\*DO NOT READ TO RESPONDENT\*\*\*\*\*

Enter range reported by respondent

\$ \_\_\_\_\_.00 to \$ \_\_\_\_\_.00

S8RG Add the entries in S8CK1 and divide by 2. Store the answer in S8OU. If S8OU is between \$1.00 and \$450.00 go to S9 otherwise go to S8RC.

S8RC \*\*\*\*\*DO NOT ASK THE RESPONDENT\*\*\*\*\*

AMOUNT SPENT RECORDED AS: (entry in S8OU)  
IS THIS ENTRY CORRECT?

- <1> Yes (go to SCK9)
- <2> No (go to S8COR)

S8COR \*\*\*\*\*DO NOT ASK THE RESPONDENT\*\*\*\*\*

INCORRECT ENTRY WAS RECORDED AS: (entry in S8OU)  
CORRECT ENTRY IS:

\$ \_\_\_\_\_.00

## II. FOOD PROGRAM PARTICIPATION

S9 **People do different things when they are running out of money for food in order to make their food or their food money go further.**

In the last 12 months, since September of last year, did you ever run short of money and try to make your food or your food money go further?

- <1> Yes (SKIP TO SP1)
- <2> No (SKIP to SP1CK)

Blind <D> or <R> skip to SP1

SP1CK If POOR=2 skip to SS1 else ask SP1.

SP1 If hnum=1 fill with first option else fill with second.

**In the past 12 months, since September of last year, did (you/anyone in this household) get food stamp benefits that is, either food stamps or a food-stamp benefit card?**

- <1> Yes (Ask SP2)
- <2> No (SKIP TO SP5CK)

Blind <D> or <R> skip to SP5CK

SP2 If hnum=1 fill with first option else fill with second.

**In what month did (you/your household) last receive food stamp benefits?**

SP2M Month \_\_\_\_\_

[If Month is August or September, ask Date.

Otherwise, go to SP3]

Blind <D> or <R> (SKIP TO SP3)

SP2D Day \_\_\_\_\_  
<1-31>

Blind <D> or <R>

SP3 If hnum=1 fill with first option else fill with second.

**How much did (you/your household) receive in (MONTH/ the last time you got food stamp benefits)?**

\$ \_\_\_\_ .00

Blind <D> or <R>

SP3CK Store entry in SP3O. If SP3O is between \$1.00 and \$700.00 go to SP4 otherwise go to SP3RC.

SP3RC \*\*\*\*\*DO NOT ASK THE RESPONDENT\*\*\*\*\*

AMOUNT RECEIVED RECORDED AS: (entry in SP3O)  
IS THIS ENTRY CORRECT?

- <1> YES (go to SP4)
- <2> NO (go to SP3COR)

SP3COR \*\*\*\*\*DO NOT ASK THE RESPONDENT\*\*\*\*\*

INCORRECT ENTRY WAS RECORDED AS: (entry in SP3O) CORRECT ENTRY  
IS:

\$\_\_\_.00 (store entry in SP3O)

**Items SP3 through SP3COR go into making the out variable SP3O. This is the amount received in food stamp benefits.**

SP4 If hhnum=1 fill first, second, and fourth parenthetical with first option else fill with second.

If valid response to MONTH, fill third parenthetical with first option, else fill with second.

**(In MONTH did (you/your household) get its food stamp benefits as (The last time your household) got food stamp benefits were they) paper food stamps or a plastic EBT benefit card?**

- <1> \_\_\_\_\_ paper food stamps
- <2> \_\_\_\_\_ plastic EBT benefit card

Blind <D> or <R>

SP5CK IF HHMEM=1 and AGE is 60 years old or older of anyone in the household ask SP5 else skip to SP6CK.

SP5 If more than one person in household fill with second option, else fill with first option.

**During the past 30 days, did (you/ anyone in the household) receive any meals delivered to the home from community programs, "Meals on Wheels," or any other programs?**

<1> Yes

<2> No

Blind <D> or <R>

SP5A If more than one person in household fill with second option, else fill with first option.

**During the past 30 days, did (you/anyone in the household) go to a community program or senior center to eat prepared meals?**

<1> Yes

<2> No

Blind <D> or <R>

SP6CK If HHMEM=1 and AGE is 5 THROUGH 18 for anyone in the household ask SP6 else skip to SP7ACK.

SP6 If only 1 child between 5 and 18 years old fill with "your child" else fill with second option.

**During the past 30 days, did (your child/any children in the household between 5 and 18 years old) receive free or reduced-cost lunches at school?**

<1> Yes

<2> No (SKIP TO SP7ACK)

Blind <D> or <R> SKIP TO SP7ACK

SP7 If only 1 child between 5 and 18 years old fill with "your child" else fill with second option.

**During the past 30 days, did (your child/any children in the household) receive free or reduced-cost breakfasts at school?**

<1> Yes

<2> No

Blind <D> or <R>

SP7ACK If HHMEM=1 and AGE is less than 13 for anyone in the household ask SP7A else skip to SP8CK.

SP7A If only 1 child under age 13 fill with first option else fill with second option

**During the past 30 days, did (your child/any children in the household) receive free or reduced-cost food at a day-care or Head Start program?**

<1> Yes

<2> No

Blind <D> or <R>

SP8CK If [(SEX=2 and AGE = 15-45) OR (AGE<5)] and HHMEM=1 for anyone in the household then ask SP8 else skip to SS1.

SP8 If[(SEX=2 and AGE=15-45) and (AGE<5)] then fill second option else if (SEX=2 and AGE=15-45) and (no AGE<5) then fill first option else fill third option.

**During the past 30 days, did any (women/women or children/children/women and children) in this household get food through the WIC program?**

<1> Yes

<2> No (SKIP TO SS1)

Blind <D> or <R> (SKIP TO SS1)

SP9 If (SEX=2 and AGE=15-45) and (AGE<5) then fill second option else if (SEX=2 and AGE=15-45) and (no AGE<5) then fill first option else fill third option.

**How many (women/women or children/children/women and children) in the household got WIC foods?**

Number \_\_\_\_\_

Blind <D> or <R>

**III. CONCERN ABOUT FOOD SUFFICIENCY**

**These next questions are about the food eaten in your household in the last 12 months, since September of last year, and whether you were able to afford the food you need.**

SS1 **Which of these statements best describes the food eaten in your household-- enough of the kinds of food we want to eat, enough but not always the kinds of food we want to eat, sometimes not enough to eat, or often not enough to eat?**

- <1> Enough of the kinds of food we want to eat (SKIP TO SX1CK)
- <2> Enough but not always the kinds of food we want to eat (SKIP TO SS1B)
- <3> Sometimes not enough to eat (SKIP TO SS1C)
- <4> Often not enough to eat (SKIP TO SS1C)

Blind <D> or <R> (SKIP TO SX1CK)

SS1B **Here are some reasons why people don't always have the kinds of food they want. For each one, please tell me if that is a reason why YOU don't always have the kinds of food you want to eat.**

READ LIST. MARK ALL THAT APPLY.

	YES	NO
<b>Not enough money for food</b>	[ ]	[ ]
<b>Kinds of food we want not available</b>	[ ]	[ ]
<b>Not enough time for shopping or cooking</b>	[ ]	[ ]
<b>Too hard to get to the store</b>	[ ]	[ ]
<b>On a special diet</b>	[ ]	[ ]

Blind <D> or <R> for each category  
All responses go to SX1CK

SS1C

**Here are some reasons why people don't always have enough to eat. For each one, please tell me if that is a reason why YOU might not always have enough to eat.**

READ LIST. MARK ALL THAT APPLY.

	YES	NO
<b>Not enough money for food</b>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Not enough time for shopping or cooking</b>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Too hard to get to the store</b>	<input type="checkbox"/>	<input type="checkbox"/>
<b>On a diet</b>	<input type="checkbox"/>	<input type="checkbox"/>
<b>No working stove available</b>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Not able to cook or eat because of health problems</b>	<input type="checkbox"/>	<input type="checkbox"/>

Blind <D> or <R> for each category

All responses go to SX1CK

SX1CK If POOR=2 and (SS1=<1>or <R>) and S9=<2> or <R>, then skip to S10 else continue to SS2CK.

SS2CK If MISCK=8 then skip to SS2A else continue to SS2.

SS2 If only 1 HHMEM=1 and (AGE>=18 or PURRP<=3) in household then fill first option in parenthetical else fill second option.

**Now I'm going to read you several statements that people have made about their food situation. For these statements, please tell me whether the statement was OFTEN true, SOMETIMES true, or NEVER true for (you/your household) in the last 12 months.**

**The first statement is "(I/We) worried whether (my/our) food would run out before (I/we) got money to buy more." Was that OFTEN true, SOMETIMES true, or NEVER true for (you/your household) in the last 12 months?**

<1> Often true  
<2> Sometimes true  
<3> Never true

Blind <D> or <R>

All responses go to SS3

SS2A If only 1 HHMEM=1 and (AGE >=18 or PURRP <=3) in household then fill first option in parenthetical else fill second option.

**In the past 12 months, did(you/you or anyone else in your household) worry that there would not be enough to eat because of the lack of money?**

<1> Yes

<2> No

Blind <D> or <R>

All responses go to SS3A

SS3 **"The food that (I/we) bought just didn't last, and (I/we) didn't have money to get more." Was that OFTEN, SOMETIMES or NEVER true for you in the last 12 months?**

<1> Often true

<2> Sometimes true

<3> Never true

Blind <D> or <R>

All responses go to SS4

SS3A **In the past 12 months, did(you/you or anyone else in your household) not have enough food to eat because of lack of money?**

<1> Yes

<2> No

Blind <D> or <R>

All responses go to SS4A

SS4 **"(I/we) couldn't afford to eat balanced meals." Was that often, sometimes or never true for you in the last 12 months?**

<1> Often true

<2> Sometimes true

<3> Never true

Blind <D> or <R>

All responses go to SS5CK

SS4A **In the past 12 months, did (you/you or anyone else in your household) not eat the quality or variety of foods that you wanted to eat because of lack of money?**

<1> Yes

<2> No

Blind <D> or <R>

All responses go to SS5CK.

SS5CK If any HHMEM=1 and AGE<=17 and PURRP>=4 in household go to SS5CK2 else skip to SX2CK

SS5CK2 If MISCK=8 then read following, else skip to SS5.

**Now I'm going to read you several statements that people have made about their food situation. For these statements, please tell me whether the statement was OFTEN true, SOMETIME true, or NEVER true for (you/your household) in the last 12 months. The first statement is:**

SS5 If only 1 HHMEM=1 and (AGE>=18 or PURRP<=3) in household fill first, second, and fourth parenthetical with first option else fill with second option.

If only one person with AGE<=17 and PURRP>=4 then fill third parenthetical with first option else fill with second option.

**"(I/we) relied on only a few kinds of low-cost food to feed ((my/our) child/the children) because (I was/we were) running out of money to buy food. Was that often, sometimes or never true for you in the last 12 months?**

<1> Often true

<2> Sometimes true

<3> Never true

Blind <D> or <R>

SS6 If only 1 HHMEM=1 and (AGE>=18 or PURRP<=3) in household fill first, second and fourth parenthetical with first option else fill with second option.

If only one person with AGE<=17 and PURRP>=4 then fill third parenthetical with first option else fill with second option.

**"(I/we) couldn't feed ((my/our) child/the children) a balanced meal, because (I/we) couldn't afford that." Was that often, sometimes, or never true for you in the last 12 months?**

- <1> Often true
- <2> Sometimes true
- <3> Never true

Blind <D> or <R>

SX2CK If SS1 = <3> or <4> OR SS2 = <1> or <2> OR SS2A = <1> OR SS3 = <1> or <2> OR SS3A = <1> OR SS4 = <1> or <2> OR SS4A = <1> OR SS5 = <1> or <2> OR SS6 = <1> or <2> then continue to SHICK2 else skip to SC1.

SH1CK2 If any HHMEM=1 and AGE <=17 and PURRP >= 4 in household, ask SH1 else skip to SH2.

SH1 If only 1 HHMEM=1 and (AGE>=18 or PURRP<=3) in household fill first and third parenthetical with first option else fill with second option.

If only one person with AGE<=17 and PURRP>=4 then fill second parenthetical with first option else fill with second option.

**"((My/Our) child was/The children were) not eating enough because (I/we) just couldn't afford enough food." Was that often, sometimes or never true for you in the last 12 months?**

- <1> Often true
- <2> Sometimes true
- <3> Never true

Blind <D> or <R>

All responses go to SH2

SH2 If only 1 HHMEM=1 and (AGE>=18 or PURRP<=3) in household fill parenthetical with first option else fill with second option.

**In the last 12 months, did (you/ you or other adults in your household) ever cut the size of your meals or skip meals because there wasn't enough money for food?**

- <1> Yes
- <2> No (SKIP TO SH3)

Blind <D> or <R> SKIP TO SH3

SHF2 **How often did this happen--almost every month, some months but not every month, or in only 1 or 2 months?**

- <1> Almost every month
- <2> Some months but not every month
- <3> Only 1 or 2 months

Blind <D> or <R> SKIP TO SHM2

SHF2ACK If MISCK=8 ask SHF2A, else skip to SHM2

SHF2A **In months when you cut the size of you meals or skipped meals how many days did this usually happen?**

\_\_\_\_\_ number of days  
<1-30>

Blind <D> or <R>  
All responses go to SH3

SHM2 If only 1 HHMEM=1 and (AGE>=18 or PURRP<=3) in household fill parenthetical with first option else fill with second option.

**Now think about the last 30 days. During that time did (you/ you or other adults in your household) ever cut the size of your meals or skip meals because there wasn't enough money for food?**

All responses go to SC1

#### **IV. WAYS OF COPING WITH NOT HAVING ENOUGH FOOD**

For items SC1 through SC4, if only 1 HHMEM=1 and (AGE>=18 or PURRP<=3) in household then fill first parenthetical with first option else fill with second option.

SC1 **In the last 12 months, did (you/you or other adults in your household) ever get food or borrow money for food from friends or relatives?**

<1> Yes  
<2> No (Skip to SC2CK)

Blind <D> or <R> SKIP TO SC2CK

SCF1 **How often did this happen-almost every month, some months but not every month, or in only 1 or 2 months?**

- <1> Almost every month
- <2> Some months but not every month
- <3> Only 1 or 2 months

Blind <D> or <R>

SC2CK IF HHMEM=1 and AGE <=17 and PURRP>=4 of anyone in the household ask SC2 else skip to SC3.

SC2 If only one child with AGE <=17 and PURRP>=4 then fill second parenthetical with "your child" else fill with second option.

**In the last 12 months, did (you/ you or other adults in your household) ever send or take (your child/ the children) to the homes of friends or relatives for a meal because you were running out of food?**

- <1> Yes
- <2> No

Blind <D> or <R>

SC3 **In the last 12 months, did (you/ you or other adults in your household) ever get emergency food from a church, a food pantry, or food bank?**

- <1> Yes
- <2> No (SKIP TO SC3A)

Blind <D> or <R> SKIP TO SC4

SCF3 **How often did this happen-almost every month, some months but not every month, or in only 1 or 2 months?**

- <1> Almost every month (SKIP TO SC4)
- <2> Some months but not every month (SKIP TO SC4)
- <3> Only 1 or 2 months (SKIP TO SC4)

Blind <D> or <R> (SKIP TO SC4)

SC3A **Is there a church, food pantry or food bank in your community where you could get emergency food if you needed it?**

<1> Yes

<2> No

Blind <D> or <R> for each category

SC4 **In the last 12 months, did (you/you or other adults in your household) ever eat any meals at a soup kitchen?**

<1> Yes

<2> No

Blind <D> or <R>

## V. MINIMUM SPENDING NEED TO HAVE ENOUGH FOOD

S10 If NUMHOU = 1 then fill first and third parenthetical with first option else fill with second option.

If definite amount calculated in S8, fill parenthetical with S8O else if range given in S8 fill with range calculated.

**You said that altogether (you usually spend/your household usually spends) (\$\_\_ \_\_ / about \$\_\_ \_\_ to \$\_\_ \_\_) on food in an average week. In order to buy just enough food to meet (your needs/the needs of your household), would you need to spend more than you do now, or could you spend less?**

<1> More (GO TO S11)

<2> Less (SKIP TO S12)

<3> Same (SKIP TO END OF MODULE)

Blind <DK> or <R> (SKIP TO END OF MODULE)

S11 **About how much MORE would you need to spend each week to buy just enough food to meet the needs of your household?**

\$ \_\_\_\_\_ (SKIP TO END OF MODULE)

Accept range \$ \_\_\_\_\_ to \$ \_\_\_\_\_ (SKIP TO END OF MODULE)

Blind <DK> or <R> (SKIP TO END OF MODULE)

S12

**About how much LESS could you spend each week and still buy enough food to meet the needs of your household?**

\$ \_\_\_\_\_

Accept range \$ \_\_\_\_\_ to \$ \_\_\_\_\_

Blind <DK> or <R>

## ATTACHMENT 10

### INDUSTRY CLASSIFICATIONS

#### Industry Classification Codes for Detailed Industry (3-digit)

There are 236 categories for the employed, with 1 additional category for the experienced unemployed. These categories are aggregated into 51 detailed groups and 23 major groups (see pages 11-9 through 11-11).

(Numbers in parentheses are the 1987 SIC code equivalent; see Executive Office of the President, Office of Management and Budget, Standard Industrial Classification Manual, 1987. "Pt" means part, "n.e.c." means not elsewhere classified.)

These codes correspond to Items PEIO1ICD and PEIO2ICD located in the adults record layout. These codes are located in positions 436-438 and 446-448 in all months **except** March. In **March**, these codes correspond to Item A-IND, positions 103-105.

Code	Industry
000-009	not used
010-030	AGRICULTURE
010	Agricultural production, crops (01)
011	Agricultural production, livestock (02)
012	Veterinary services (074)
013-019	not used
020	Landscape and horticultural services (078)
021-029	not used
030	Agricultural services, n.e.c. (071, 072, 075, 076)
031-032	FORESTRY AND FISHERIES
031	Forestry (08)
032	Fishing, hunting, and trapping (09)
033-039	not used
040-050	MINING
040	Metal mining (10)
041	Coal mining (12)
042	Oil and gas extraction (13)
043-049	not used
050	Nonmetallic mining and quarrying, except fuel (14)
051-059	not used
060	CONSTRUCTION (15, 16, 17)
061-099	not used
100-392	MANUFACTURING
100-222	NONDURABLE GOODS
100-122	Food and kindred products
100	Meat products (201)
101	Dairy products (202)
102	Canned, frozen and preserved fruits and vegetables (203)
103-109	not used
110	Grain mill products (204)
111	Bakery products (205)

<b>Code</b>	<b>Industry</b>
112	Sugar and confectionery products (206)
113-119	not used
120	Beverage industries (208)
121	Miscellaneous food preparations and kindred products (207, 209)
122	Not specified food industries
123-129	not used
130	Tobacco manufactures (21)
131	not used
132-150	Textile mill products
132	Knitting mills (225)
133-139	not used
140	Dyeing and finishing textiles, except wool and knit goods (226)
141	Carpets and rugs (227)
142	Yarn, thread, and fabric mills (221-224, 228)
143-149	not used
150	Miscellaneous textile mill products (229)
151-152	Apparel and other finished textile products
151	Apparel and accessories, except knit (231-238)
152	Miscellaneous fabricated textile products (239)
153-159	not used
160-162	Paper and allied products
160	Pulp, paper, and paperboard mills (261-263)
161	Miscellaneous paper and pulp products (267)
162	Paperboard containers and boxes (265)
163-170	not used
171-172	Printing, publishing, and allied industries
171	Newspaper publishing and printing (271)
172	Printing, publishing, and allied industries, except newspapers (272-279)
173-179	not used
180-192	Chemicals and allied products
180	Plastics, synthetics, and resins (282)
181	Drugs (283)
182	Soaps and cosmetics (284)
183-189	not used
190	Paints, varnishes, and related products (285)
191	Agricultural chemicals (287)
192	Industrial and miscellaneous chemicals (281, 286, 289)
193-199	not used
200-201	Petroleum and coal products
200	Petroleum refining (291)
201	Miscellaneous petroleum and coal products (295, 299)
202-209	not used
210-212	Rubber and miscellaneous plastics products
210	Tires and inner tubes (301)
211	Other rubber products, and plastics footwear and belting (302-306)
212	Miscellaneous plastics products (308)
213-219	not used
220-222	Leather and leather products
220	Leather tanning and finishing (311)
221	Footwear, except rubber and plastic (313, 314)
222	Leather products, except footwear (315-317, 319)
223-229	not used

<b>Code</b>	<b>Industry</b>
230-392	DURABLE GOODS
230-241	Lumber and wood products, except furniture
230	Logging (241)
231	Sawmills, planing mills, and millwork (242, 243)
232	Wood buildings and mobile homes (245)
233-240	not used
241	Miscellaneous wood products (244, 249)
242	Furniture and fixtures (25)
243-249	not used
250-262	Stone, clay, glass, and concrete products
250	Glass and glass products (321-323)
251	Cement, concrete, gypsum, and plaster products (324, 327)
252	Structural clay products (325)
253-260	not used
261	Pottery and related products (326)
262	Miscellaneous nonmetallic mineral and stone products (328, 329)
263-269	not used
270-301	Metal industries
270	Blast furnaces, steelworks, rolling and finishing mills (331)
271	Iron and steel foundries (332)
272	Primary aluminum industries (3334, part 334, 3353-3355, 3363, 3365)
273-279	not used
280	Other primary metal industries (3331, 3339, part 334, 3351, 3356, 3357, 3364, 3366, 3369, 339)
281	Cutlery, handtools, and general hardware (342)
282	Fabricated structural metal products (344)
283-289	not used
290	Screw machine products (345)
291	Metal forgings and stampings (346)
292	Ordnance (348)
293-299	not used
300	Miscellaneous fabricated metal products (341, 343, 347, 349)
301	Not specified metal industries
302-309	not used
310-332	Machinery and computing equipment
310	Engines and turbines (351)
311	Farm machinery and equipment (352)
312	Construction and material handling machines (353)
313-319	not used
320	Metalworking machinery (354)
321	Office and accounting machines (3578, 3579)
322	Computers and related equipment (3571-3577)
323-330	not used
331	Machinery, except electrical, n.e.c. (355, 356, 358, 359)
332	Not specified machinery
333-339	not used
340-350	Electrical machinery, equipment, and supplies
340	Household appliances (363)
341	Radio, TV, and communication equipment (365, 366)
342	Electrical machinery, equipment, and supplies, n.e.c. (361, 362, 364, 367, 369)
343-349	not used
350	Not specified electrical machinery, equipment, and supplies
351-370	Transportation equipment
351	Motor vehicles and motor vehicle equipment (371)

<b>Code</b>	<b>Industry</b>
352	Aircraft and parts (372)
353-359	not used
360	Ship and boat building and repairing (373)
361	Railroad locomotives and equipment (374)
362	Guided missiles, space vehicles, and parts (376)
363-369	not used
370	Cycles and miscellaneous transportation equipment (375, 379)
371-381	Professional and photographic equipment, and watches
371	Scientific and controlling instruments (381, 382 except 3827)
372	Medical, dental, and optical instruments and supplies (3827, 384, 385)
373-379	not used
380	Photographic equipment and supplies (386)
381	Watches, clocks, and clockwork operated devices (387)
382-389	not used
390	Toys, amusement, and sporting goods (394)
391	Miscellaneous manufacturing industries (39 except 394)
392	Not specified manufacturing industries
393-399	not used
400-472	TRANSPORTATION, COMMUNICATIONS, AND OTHER PUBLIC UTILITIES
400-432	TRANSPORTATION
400	Railroads (40)

## OCCUPATION CLASSIFICATIONS

### Occupational Classification Codes for Detailed Occupational Categories (3-digit)

There are 500 categories for the employed with 1 additional category for the experienced unemployed. These categories are aggregated into 46 detailed groups and 14 major groups (see pages 12-15 through 12-17).

The classification is developed from the 1980 Standard Occupational Classification. "n.e.c." is the abbreviation for not elsewhere classified.

These codes correspond to Items PEIO1OCD and PEIO2OCD located in the adults record layout. These codes are located in positions 439-441 and 449-451 in all months **except** March. In **March**, these codes correspond to Item A-OCC, positions 106-108.

<b>Code</b>	<b>Occupation</b>
000-199	MANAGERIAL AND PROFESSIONAL SPECIALTY OCCUPATIONS
000-037	EXECUTIVE, ADMINISTRATIVE, AND MANAGERIAL OCCUPATIONS
000-003	not used
004	Chief executives and general administrators, public administration (112)
005	Administrators and officials, public administration (1132-1139)

199	Athletes (34)
200-202	not used
203-389	TECHNICAL, SALES, AND ADMINISTRATIVE SUPPORT OCCUPATIONS
203-235	TECHNICIANS AND RELATED SUPPORT OCCUPATIONS
203-208	Health Technologists and Technicians
203	Clinical laboratory technologists and technicians (362)
204	Dental hygienists (363)
205	Health record technologists and technicians (364)
206	Radiologic technicians (365)
207	Licensed practical nurses (366)
208	Health technologists and technicians, n.e.c. (369)
209-212	not used
213-235	Technologists and Technicians, Except Health
213-218	Engineering and Related Technologists and Technicians
213	Electrical and electronic technicians (3711)
214	Industrial engineering technicians (3712)
215	Mechanical engineering technicians (3713)
216	Engineering technicians, n.e.c. (3719)
217	Drafting occupations (372)
218	Surveying and mapping technicians (373)
219-222	not used
223-225	Science Technicians
223	Biological technicians (382)
224	Chemical technicians (3831)
225	Science technicians, n.e.c. (3832, 3833, 384, 389)
226-235	Technicians, Except Health, Engineering, and Science

<b>Code</b>	<b>Occupation</b>
226	Airplane pilots and navigators (825)
227	Air traffic controllers (392)
228	Broadcast equipment operators (393)
229	Computer programmers (3971, 3972)
230-232	not used
233	Tool programmers, numerical control (3974)
234	Legal assistants (396)
235	Technicians, n.e.c. (399)
236-242	not used
243-285	<b>SALES OCCUPATIONS</b>
243	Supervisors and Proprietors, Sales Occupations (40)
244-252	not used
253-257	Sales Representatives, Finance and Business Services
253	Insurance sales occupations (4122)
254	Real estate sales occupations (4123)
255	Securities and financial services sales occupations (4124)
256	Advertising and related sales occupations (4153)
257	Sales occupations, other business services (4152)
258-259	Sales Representatives, Commodities, Except Retail
258	Sales engineers (421)
259	Sales representatives, mining, manufacturing, and wholesale (423, 424)
260-262	not used
263-278	Sales Workers, Retail and Personal Services
263	Sales workers, motor vehicles and boats (4342, 4344)
264	Sales workers, apparel (4346)
265	Sales workers, shoes (4351)
266	Sales workers, furniture and home furnishings (4348)
267	Sales workers, radio, TV, hi-fi, and appliances (4343, 4352)
268	Sales workers, hardware and building supplies (4353)
269	Sales workers, parts (4367)
270-273	not used
274	Sales workers, other commodities (4345, 4347, 4354, 4356, 4359, 4362, 4369)
275	Sales counter clerks (4363)
276	Cashiers (4364)
277	Street and door-to-door sales workers (4366)
278	News vendors (4365)
279-282	not used
283-285	Sales Related Occupations
283	Demonstrators, promoters and models, sales (445)
284	Auctioneers (447)
285	Sales support occupations, n.e.c. (444, 446, 449)
286-302	not used
303-389	<b>ADMINISTRATIVE SUPPORT OCCUPATIONS, INCLUDING CLERICAL</b>
303-307	Supervisors, Administrative Support Occupations
303	Supervisors, general office (4511, 4513, 4514, 4516, 4519, 4529)
304	Supervisors, computer equipment operators (4512)
305	Supervisors, financial records processing (4521)
306	Chief communications operators (4523)
307	Supervisors, distribution, scheduling, and adjusting clerks (4522, 4524-4528)
308-309	Computer Equipment Operators
308	Computer operators (4612)
309	Peripheral equipment operators (4613)

<b>Code</b>	<b>Occupation</b>
310-312	not used
313-315	Secretaries, Stenographers, and Typists
313	Secretaries (4622)
314	Stenographers (4623)
315	Typists (4624)
316-323	Information Clerks
316	Interviewers (4642)
317	Hotel clerks (4643)
318	Transportation ticket and reservation agents (4644)
319	Receptionists (4645)
320-322	not used
323	Information clerks, n.e.c. (4649)
324	not used
325-336	Records Processing Occupations, Except Financial
325	Classified-ad clerks (4662)
326	Correspondence clerks (4663)
327	Order clerks (4664)
328	Personnel clerks, except payroll and timekeeping (4692)
329	Library clerks (4694)
330-334	not used
335	File clerks (4696)
336	Records clerks (4699)
337-344	Financial Records Processing Occupations
337	Bookkeepers, accounting, and auditing clerks (4712)
338	Payroll and timekeeping clerks (4713)
339	Billing clerks (4715)
340-342	not used
343	Cost and rate clerks (4716)
344	Billing, posting, and calculating machine operators (4718)
345-347	Duplicating, Mail and Other Office Machine Operators
345	Duplicating machine operators (4722)
346	Mail preparing and paper handling machine operators (4723)
347	Office machine operators, n.e.c. (4729)
348-353	Communications Equipment Operators
348	Telephone operators (4732)
350-352	not used
353	Communications equipment operators, n.e.c. (4733, 4739)
354-357	Mail and Message Distributing Occupations
354	Postal clerks, except mail carriers (4742)
355	Mail carriers, postal service (4743)
356	Mail clerks, except postal service (4744)
357	Messengers (4745)
358	not used
359-374	Material Recording, Scheduling, and Distributing Clerks
359	Dispatchers (4751)
360-362	not used
363	Production coordinators (4752)
364	Traffic, shipping, and receiving clerks (4753)
365	Stock and inventory clerks (4754)
366	Meter readers (4755)
367	not used
368	Weighers, measurers, checkers, and samplers (4756, 4757)
369-372	not used
373	Expeditors (4758)

<b>Code</b>	<b>Occupation</b>
374	Material recording, scheduling, and distributing clerks, n.e.c. (4759)
375-378	Adjusters and Investigators
375	Insurance adjusters, examiners, and investigators (4782)
376	Investigators and adjusters, except insurance (4783)
377	Eligibility clerks, social welfare (4784)
378	Bill and account collectors (4786)
379-389	Miscellaneous Administrative Support Occupations
379	General office clerks (463)
380-382	not used
383	Bank tellers (4791)
384	Proofreaders (4792)
385	Data-entry keyers (4793)
386	Statistical clerks (4794)
387	Teachers' aides (4795)
388	not used
389	Administrative support occupations, n.e.c. (4787, 4799)
390-402	not used
403-469	<b>SERVICE OCCUPATIONS</b>
403-407	<b>PRIVATE HOUSEHOLD OCCUPATIONS</b>
403	Launderers and ironers (503)
404	Cooks, private household (504)
405	Housekeepers and butlers (505)
406	Child care workers, private household (506)
407	Private household cleaners and servants (502, 507, 509)
408-412	not used
413-427	<b>PROTECTIVE SERVICE OCCUPATIONS</b>
413-415	Supervisors, Protective Service Occupations
413	Supervisors, firefighting and fire prevention occupations (5111)
414	Supervisors, police and detectives (5112)
415	Supervisors, guards (5113)
416-417	Firefighting and Fire Prevention Occupations
416	Fire inspection and fire prevention occupations (5122)
417	Firefighting occupations (5123)
418-424	Police and Detectives
418	Police and detectives, public service (5132)
419-422	not used
423	Sheriffs, bailiffs, and other law enforcement officers (5134)
424	Correctional institution officers (5133)
425-432	Guards
425	Crossing guards (5142)
426	Guards and police, except public service (5144)
427	Protective service occupations, n.e.c. (5149)
428-432	not used
433-469	<b>SERVICE OCCUPATIONS, EXCEPT PROTECTIVE AND HOUSEHOLD</b>
433-444	<b>Food Preparation and Service Occupations</b>
433	Supervisors, food preparation and service occupations (5211)
434	Bartenders (5212)
435	Waiters and waitresses (5213)
436	Cooks (5214, 5215)
437	not used
438	Food counter, fountain and related occupations (5216)

<b>Code</b>	<b>Occupation</b>
439	Kitchen workers, food preparation (5217)
440-442	not used
443	Waiters'/waitresses' assistants (5218)
444	Miscellaneous food preparation occupations (5219)
445-447	Health Service Occupations
445	Dental assistants (5232)
446	Health aides, except nursing (5233)
447	Nursing aides, orderlies, and attendants (5236)
448-455	Cleaning and Building Service Occupations, Except Household
448	Supervisors, cleaning and building service workers (5241)
449	Maids and housemen (5242, 5249)
450-452	not used
453	Janitors and cleaners (5244)
454	Elevator operators (5245)
455	Pest control occupations (5246)
456-469	Personal Service Occupations
456	Supervisors, personal service occupations (5251)
457	Barbers (5252)
458	Hairdressers and cosmetologists (5253)
459	Attendants, amusement and recreation facilities (5254)
460	not used
461	Guides (5255)
462	Ushers (5256)
463	Public transportation attendants (5257)
464	Baggage porters and bellhops (5262)
465	Welfare service aides (5263)
466	Family child care providers (part 5264)
467	Early childhood teacher's assistants (part 5264)
468	Child care workers, n.e.c. (part 5264)
469	Personal service occupations, n.e.c. (5258, 5269)
470-472	not used
473-499	<b>FARMING, FORESTRY, AND FISHING OCCUPATIONS</b>
473-476	Farm Operators and Managers
473	Farmers, except horticultural (5512-5514)
474	Horticultural specialty farmers (5515)
475	Managers, farms, except horticultural (5522-5524)
476	Managers, horticultural specialty farms (5525)
477-489	Other Agricultural and Related Occupations
477-484	Farm Occupations, Except Managerial
477	Supervisors, farm workers (5611)
478	not used
479	Farm workers (5612-5617)
480-482	not used
483	Marine life cultivation workers (5618)
484	Nursery workers (5619)
485-489	Related Agricultural Occupations
485	Supervisors, related agricultural occupations (5621)
486	Groundskeepers and gardeners, except farm (5622)
487	Animal caretakers, except farm (5624)
488	Graders and sorters, agricultural products (5625)
489	Inspectors, agricultural products (5627)
490-493	not used
494-496	Forestry and Logging Occupations

<b>Code</b>	<b>Occupation</b>
494	Supervisors, forestry and logging workers (571)
495	Forestry workers, except logging (572)
496	Timber cutting and logging occupations (573, 579)
497-499	Fishers, Hunters, and Trappers
497	Captains and other officers, fishing vessels (part 8241)
498	Fishers (583)
499	Hunters and trappers (584)
500-502	not used
503-699	PRECISION PRODUCTION, CRAFT, AND REPAIR OCCUPATIONS
503-552	Mechanics and Repairers
503	Supervisors, mechanics and repairers (60)
504	not used
505-549	Mechanics and Repairers, Except Supervisors
505-517	Vehicle and Mobile Equipment Mechanics and Repairers
505	Automobile mechanics (part 6111)
506	Automobile mechanic apprentices (part 6111)
507	Bus, truck, and stationary engine mechanics (6112)
508	Aircraft engine mechanics (6113)
509	Small engine repairers (6114)
510-513	not used
514	Automobile body and related repairers (6115)
515	Aircraft mechanics, except engine (6116)
516	Heavy equipment mechanics (6117)
517	Farm equipment mechanics (6118)
518	Industrial machinery repairers (613)
519	Machinery maintenance occupations (614)
520-522	not used
523-533	Electrical and Electronic Equipment Repairers
523	Electronic repairers, communications and industrial equipment (6151, 6153, 6155)
524	not used
525	Data processing equipment repairers (6154)
526	Household appliance and power tool repairers (6156)
527	Telephone line installers and repairers (6157)
528	not used
529	Telephone installers and repairers (6158)
530-532	not used
533	Miscellaneous electrical and electronic equipment repairers (6152, 6159)
534	Heating, air conditioning, and refrigeration mechanics (616)
535-549	Miscellaneous Mechanics and Repairers
535	Camera, watch, and musical instrument repairers (6171, 6172)
536	Locksmiths and safe repairers (6173)
537	not used
538	Office machine repairers (6174)
539	Mechanical controls and valve repairers (6175)
540-542	not used
543	Elevator installers and repairers (6176)
544	Millwrights (6178)
545-546	not used
547	Specified mechanics and repairers, n.e.c. (6177, 6179)
548	not used
549	Not specified mechanics and repairers
550-552	not used
553-599	Construction Trades

<b>Code</b>	<b>Occupation</b>
553-558	Supervisors, Construction Occupations
553	Supervisors, brickmasons, stonemasons, and tile setters (6312)
554	Supervisors, carpenters and related workers (6313)
555	Supervisors, electricians and power transmission installers (6314)
556	Supervisors, painters, paperhangers, and plasterers (6315)
557	Supervisors, plumbers, pipefitters, and steamfitters (6316)
558	Supervisors, construction, n.e.c. (6311, 6318)
559-562	not used
563-599	Construction Trades, Except Supervisors
563	Brickmasons and stonemasons (part 6412, part 6413)
564	Brickmason and stonemason apprentices (part 6412, part 6413)
565	Tile setters, hard and soft (part 6414, part 6462)
566	Carpet installers (part 6462)
567	Carpenters (part 6422)
568	not used
569	Carpenter apprentices (part 6422)
570-572	not used
573	Drywall installers (6424)
574	not used
575	Electricians (part 6432)
576	Electrician apprentices (part 6432)
577	Electrical power installers and repairers (6433)
578	not used
579	Painters, construction and maintenance (6442)
582	not used
583	Paperhangers (6443)
584	Plasterers (6444)
585	Plumbers, pipefitters, and steamfitters (part 645)
586	not used
587	Plumber, pipefitter, and steamfitter apprentices (part 645)
588	Concrete and terrazzo finishers (6463)
589	Glaziers (6464)
590-592	not used
593	Insulation workers (6465)
594	Paving, surfacing, and tamping equipment operators (6466)
595	Roofers (6468)
596	Sheetmetal duct installers (6472)
597	Structural metal workers (6473)
598	Drillers, earth (6474)
599	Construction trades, n.e.c. (6467, 6475, 6476, 6479)
600-612	not used
613-617	Extractive Occupations
613	Supervisors, extractive occupations (632)
614	Drillers, oil well (652)
615	Explosives workers (653)
616	Mining machine operators (654)
617	Mining occupations, n.e.c. (656)
618-627	not used
628-699	Precision Production Occupations
628	Supervisors, production occupations (67, 71)
629-633	not used
634-655	Precision Metal Working Occupations
634	Tool and die makers (part 6811)
635	Tool and die maker apprentices (part 6811)

<b>Code</b>	<b>Occupation</b>
636	Precision assemblers, metal (6812)
637	Machinists (part 6813)
638	not used
639	Machinist apprentices (part 6813)
640-642	not used
643	Boilermakers (6814)
644	Precision grinders, filers, and tool sharpeners (6816)
645	Patternmakers and model makers, metal (6817)
646	Lay-out workers (6821)
647	Precious stones and metals workers (Jewelers) (6822, 6866)
648	not used
649	Engravers, metal (6823)
650-652	not used
653	Sheet metal workers (part 6824)
654	Sheet metal worker apprentices (part 6824)
655	Miscellaneous precision metal workers (6829)
656-659	Precision Woodworking Occupations
656	Patternmakers and model makers, wood (6831)
657	Cabinet makers and bench carpenters (6832)
658	Furniture and wood finishers (6835)
659	Miscellaneous precision woodworkers (6839)
660-665	not used
666-674	Precision Textile, Apparel, and Furnishings Machine Workers
666	Dressmakers (part 6852, part 7752)
667	Tailors (part 6852)
668	Upholsterers (6853)
669	Shoe repairers (6854)
670-673	not used
674	Miscellaneous precision apparel and fabric workers (6856, 6859, part 7752)
675-684	Precision Workers, Assorted Materials
675	Hand molders and shapers, except jewelers (6861)
676	Patternmakers, lay-out workers, and cutters (6862)
677	Optical goods workers (6864, part 7477, part 7677)
678	Dental laboratory and medical appliance technicians (6865)
679	Bookbinders (6844)
680-682	not used
683	Electrical and electronic equipment assemblers (6867)
684	Miscellaneous precision workers, n.e.c. (6869)
685	not used
686-688	Precision Food Production Occupations
686	Butchers and meat cutters (6871)
687	Bakers (6872)
688	Food batchmakers (6873, 6879)
689-693	Precision Inspectors, Testers, and Related Workers
689	Inspectors, testers, and graders (6881, 828)
690-692	not used
693	Adjusters and calibrators (6882)
694-699	Plant and System Operators
694	Water and sewage treatment plant operators (691)
695	Power plant operators (part 693)
696	Stationary engineers (part 693, 7668)
697-698	not used
699	Miscellaneous plant and system operators (692, 694, 695, 696)
700-702	not used

<b>Code</b>	<b>Occupation</b>
703-889	OPERATORS, FABRICATORS, AND LABORERS
703-799	MACHINE OPERATORS, ASSEMBLERS, AND INSPECTORS
703-779	Machine Operators and Tenders, Except Precision
703-715	Metal Working and Plastic Working Machine Operators
703	Lathe and turning machine set-up operators (7312)
704	Lathe and turning machine operators (7512)
705	Milling and planing machine operators (7313, 7513)
706	Punching and stamping press machine operators (7314, 7317, 7514, 7517)
707	Rolling machine operators (7316, 7516)
708	Drilling and boring machine operators (7318, 7518)
709	Grinding, abrading, buffing, and polishing machine operators (7322, 7324, 7522)
710-712	not used
713	Forging machine operators (7319, 7519)
714	Numerical control machine operators (7326)
715	Miscellaneous metal, plastic, stone, and glass working machine operators (7329, 7529)
716	not used
717	Fabricating machine operators, n.e.c. (7339, 7539)
718	not used
719-725	Metal and Plastic Processing Machine Operators
719	Molding and casting machine operators (7315, 7342, 7515, 7542)
720-722	not used
723	Metal plating machine operators (7343, 7543)
724	Heat treating equipment operators (7344, 7544)
725	Miscellaneous metal and plastic processing machine operators (7349, 7549)
726-733	Woodworking Machine Operators
726	Wood lathe, routing, and planing machine operators (7431, 7432, 7631, 7632)
727	Sawing machine operators (7433, 7633)
728	Shaping and joining machine operators (7435, 7635)
729	Nailing and tacking machine operators (7636)
730-732	not used
733	Miscellaneous woodworking machine operators (7434, 7439, 7634, 7639)
734-737	Printing Machine Operators
734	Printing press operators (7443, 7643)
735	Photoengravers and lithographers (6842, 7444, 7644)
736	Typesetters and compositors (6841, 7642)
737	Miscellaneous printing machine operators (6849, 7449, 7649)
738-749	Textile, Apparel, and Furnishings Machine Operators
738	Winding and twisting machine operators (7451, 7651)
739	Knitting, looping, taping, and weaving machine operators (7452, 7652)
740-742	not used
743	Textile cutting machine operators (7654)
744	Textile sewing machine operators (7655)
745	Shoe machine operators (7656)
746	not used
747	Pressing machine operators (7657)
748	Laundering and dry cleaning machine operators (6855, 7658)
749	Miscellaneous textile machine operators (7459, 7659)
750-752	not used
753-779	Machine Operators, Assorted Materials
753	Cementing and gluing machine operators (7661)
754	Packaging and filling machine operators (7462, 7662)
755	Extruding and forming machine operators (7463, 7663)
756	Mixing and blending machine operators (7664)
757	Separating, filtering, and clarifying machine operators (7476, 7666, 7676)

<b>Code</b>	<b>Occupation</b>
758	Compressing and compacting machine operators (7467, 7667)
759	Painting and paint spraying machine operators (7669)
760-762	not used
763	Roasting and baking machine operators, food (7472, 7672)
764	Washing, cleaning, and pickling machine operators (7673)
765	Folding machine operators (7474, 7674)
766	Furnace, kiln, and oven operators, except food (7675)
767	not used
768	Crushing and grinding machine operators (part 7477, part 7677)
769	Slicing and cutting machine operators (7478, 7678)
770-772	not used
773	Motion picture projectionists (part 7479)
774	Photographic process machine operators (6863, 6868, 7671)
775-776	not used
777	Miscellaneous machine operators, n.e.c. (part 7479, 7665, 7679)
778	not used
779	Machine operators, not specified
780-782	not used
783-795	Fabricators, Assemblers, and Hand Working Occupations
783	Welders and cutters (7332, 7532, 7714)
784	Solderers and brazers (7333, 7533, 7717)
785	Assemblers (772, 774)
786	Hand cutting and trimming occupations (7753)
787	Hand molding, casting, and forming occupations (7754, 7755)
788	not used
789	Hand painting, coating, and decorating occupations (7756)
790-792	not used
793	Hand engraving and printing occupations (7757)
794	not used
795	Miscellaneous hand working occupations (7758, 7759)
796-799	Production Inspectors, Testers, Samplers, and Weighers
796	Production inspectors, checkers, and examiners (782, 787)
797	Production testers (783)
798	Production samplers and weighers (784)
799	Graders and sorters, except agricultural (785)
800-802	not used
803-859	<b>TRANSPORTATION AND MATERIAL MOVING OCCUPATIONS</b>
803-814	Motor Vehicle Operators
803	Supervisors, motor vehicle operators (8111)
804	Truck drivers (8212-8214)
805	not used
806	Driver-sales workers (8218)
807	not used
808	Bus drivers (8215)
809	Taxicab drivers and chauffeurs (8216)
810-812	not used
813	Parking lot attendants (874)
814	Motor transportation occupations, n.e.c. (8219)
815-822	not used
823-834	Transportation Occupations, Except Motor Vehicles
823-826	Rail Transportation Occupations
823	Railroad conductors and yardmasters (8113)
824	Locomotive operating occupations (8232)

<b>Code</b>	<b>Occupation</b>
825	Railroad brake, signal, and switch operators (8233)
826	Rail vehicle operators, n.e.c. (8239)
827	not used
828-834	Water Transportation Occupations
828	Ship captains and mates, except fishing boats (part 8241, 8242)
829	Sailors and deckhands (8243)
830-832	not used
833	Marine engineers (8244)
834	Bridge, lock, and lighthouse tenders (8245)
835-842	not used
843-859	Material Moving Equipment Operators
843	Supervisors, material moving equipment operators (812)
844	Operating engineers (8312)
845	Longshore equipment operators (8313)
846-847	not used
848	Hoist and winch operators (8314)
849	Crane and tower operators (8315)
850-852	not used
853	Excavating and loading machine operators (8316)
854	not used
855	Grader, dozer, and scraper operators (8317)
856	Industrial truck and tractor equipment operators (8318)
857-858	not used
859	Miscellaneous material moving equipment operators (8319)
860-863	not used
864-889	HANDLERS, EQUIPMENT CLEANERS, HELPERS, AND LABORERS
864	Supervisors, handlers, equipment cleaners, and laborers, n.e.c. (85)
865	Helpers, mechanics, and repairers (863)
866-868	Helpers, Construction, and Extractive Occupations
866	Helpers, construction trades (8641-8645, 8648)
867	Helpers, surveyor (8646)
868	Helpers, extractive occupations (865)
869	Construction laborers (871)
870-873	not used
874	Production helpers (861, 862)
875-883	Freight, Stock, and Material Handlers
875	Garbage collectors (8722)
876	Stevedores (8723)
877	Stock handlers and baggers (8724)
878	Machine feeders and offbearers (8725)
879-882	not used
883	Freight, stock, and material handlers, n.e.c. (8726)
884	not used
885	Garage and service station related occupations (873)
886	not used
887	Vehicle washers and equipment cleaners (875)
888	Hand packers and packagers (8761)
889	Laborers, except construction (8769)
890-904	not used
905	Assigned to persons whose current labor force status is unemployed and whose last job was Armed Forces.

Detailed Occupation Recodes  
(01-46)

These codes correspond to the Items PRDTOCC1 and PRDTOCC2 located in positions 476-479 of the adults record layout in all months **except** March. In **March**, these codes are located in positions 0161-0162.

Armed Forces last job, currently unemployed	14	905

## ATTACHMENT 12

### Specific Metropolitan Identifiers

The specific metropolitan identifiers on this file are based on the Office of Management and Budget's June 30, 1993 definitions. MSA's and PMSA's can be identified by using the FIPS MSA/PMSA code (List 3). Identification of individual central cities is based on a combination of codes (List 2). Individual central cities are identified by the appropriate central city code and the FIPS MSA/PMSA code. Some examples of the proper coding of specific metropolitan areas are given below:

<u>AREA</u>	<u>INDIVIDUAL CENTRAL CITY CODE (GEINDVCC)</u>	<u>FIPS MSA/PMSA CODE (GEMSA)</u>	<u>FIPS CMSA CODE (GECMSA)</u>
	List 4	List 2 or 3	List 1 or 2
Dallas-Fort Worth, TX CMSA	N/C	1920 and 2800	31
Fort Worth-Arlington, TX PMSA	N/C	2800	N/C
Fort Worth, TX Central City	1	2800	N/C
Phoenix, AZ MSA	N/C	6200	N/C
Mesa, AZ Central City	2	6200	N/C
Burlington, VT MSA	N/C	1305	N/C

N/C = No Code Required

**NOTE:**

Many of the smaller metropolitan areas in sample do not contain central city/balance breakdowns and hence, are coded "not identifiable" in the household metropolitan statistical area residence status code (GEMSAST). It is recommended that this code in conjunction with the modified household metropolitan statistical area residence status code (GEMETSTA) be used for tallying metropolitan residence status for national and other grouped data. The GE in each variable name refers to Household Geographic.

## LIST 1: CMSA CODE (GECMSA)

<u>FIPS CODE</u> <u>(GECMSA)</u>	<u>CMSA TITLE</u>
07	Boston-Worcester-Lawrence, MA-NH-ME-CT
14	Chicago-Gary-Kenosha, IL-IN-WI (Kenosha, WI and Kankakee, IL PMSA's not in sample)
21	Cincinnati-Hamilton, OH-KY-IN
28	Cleveland-Akron, OH
31	Dallas-Fort Worth, TX
34	Denver-Boulder-Greeley, CO
35	Detroit-Ann Arbor-Flint, MI
42	Houston-Galveston-Brazoria, TX
49	Los Angeles-Riverside-Orange County, CA

### Topcoding of Usual Hourly Earnings

This variable will be topcoded based on an individual's usual hours worked variable, if the individual's edited usual weekly earnings variable is \$999. The topcode is computed such that the product of usual hours times usual hourly earnings does not exceed an annualized wage of \$100,000 (\$1,923.07 per week). Below is a list of the appropriate topcodes.

Hours	Topcode	Hours	Topcode	Hours	Topcode
1	None	34	\$56.56	67	\$28.70
2	None	35	\$54.94	68	\$28.28
3	None	36	\$53.41	69	\$27.87
4	None	37	\$51.97	70	\$27.47
5	None	38	\$50.60	71	\$27.08
6	None	39	\$49.30	72	\$26.70
7	None	40	\$48.07	73	\$26.34
8	None	41	\$46.90	74	\$25.98
9	None	42	\$45.78	75	\$25.64
10	None	43	\$44.72	76	\$25.30
11	None	44	\$43.70	77	\$24.97
12	None	45	\$42.73	78	\$24.65
13	None	46	\$41.80	79	\$24.34
14	None	47	\$40.91	80	\$24.03
15	None	48	\$40.06	81	\$23.74
16	None	49	\$39.24	82	\$23.45
17	None	50	\$38.46	83	\$23.16
18	None	51	\$37.70	84	\$22.89

### COUNTRIES AND AREAS OF THE WORLD

#### Current Population Survey

##### List A -- Alphabetical List of Countries and Areas of the World

If the specific country reported was not on the interviewer's list, or if the respondent did not know the specific country, the following codes for broad areas of the world were available for coding:

Code	Name
148	Europe
245	Asia
252	Middle East
304	North America
318	Central America
353	Caribbean
389	South America
468	North Africa
462	Other Africa
527	Pacific Islands
555	Elsewhere (includes country not known)

The countries (or areas) shown below were coded separately, if reported.

Code	Name	Code	Name
200	Afghanistan	213	Iraq
60	American Samoa	119	Ireland/Eire
375	Argentina	214	Israel
185	Armenia	120	Italy
501	Australia	343	Jamaica
102	Austria	215	Japan
130	Azores	216	Jordan
333	Bahamas	427	Kenya
202	Bangladesh	217	Korea/South Korea
334	Barbados	221	Laos
103	Belgium	183	Latvia
310	Belize	222	Lebanon
300	Bermuda	184	Lithuania
376	Bolivia	224	Malaysia
377	Brazil	315	Mexico
205	Burma	436	Morocco
206	Cambodia	126	Netherlands
301	Canada	514	New Zealand
378	Chile	316	Nicaragua
207	China	440	Nigeria
379	Colombia	142	Northern Ireland
311	Costa Rica	127	Norway
337	Cuba	229	Pakistan
155	Czech Republic	253	Palestine
105	Czechoslovakia	317	Panama
106	Denmark	385	Peru

<b>Code</b>	<b>Name</b>	<b>Code</b>	<b>Name</b>
339	Dominican Republic	231	Philippines
338	Dominica	128	Poland
380	Ecuador	129	Portugal
415	Egypt	72	Puerto Rico
312	El Salvador	132	Romania
139	England	192	Russia
417	Ethiopia	233	Saudi Arabia
507	Figi	140	Scotland
108	Finland	234	Singapore
109	France	156	Slovakia/Slovak Republic
110	Germany	449	South Africa
421	Ghana	134	Spain
138	Great Britain	136	Sweden
116	Greece	137	Switzerland
340	Grenada	237	Syria
66	Guam	238	Taiwan
313	Guatemala	239	Thailand
383	Guyana	351	Trinidad & Tobago
342	Haiti	240	Turkey
126	Holland	57	United States
314	Honduras	78	U.S. Virgin Islands
209	Hong Kong	180	USSR
117	Hungary	195	Ukraine
210	India	387	Uruguay
211	Indonesia	388	Venezuela
212	Iran	242	Vietnam
		147	Yugoslavia

List B. Numeric List of Countries and Areas of the World

The following list of countries/areas is in numeric order by code.

<b>Code</b>	<b>Name</b>	<b>Code</b>	<b>Name</b>
57	United States	231	Philippines
60	American Samoa	233	Saudi Arabia
66	Guam	234	Singapore
72	Puerto Rico	237	Syria
78	U.S. Virgin Islands	238	Taiwan
102	Austria	239	Thailand
103	Belgium	240	Turkey
105	Czechoslovakia	242	Vietnam
106	Denmark	245	Asia
108	Finland	252	Middle East
109	France	253	Palestine
110	Germany	300	Bermuda
116	Greece	301	Canada
117	Hungary	304	North America
119	Ireland/Eire	310	Belize
120	Italy	311	Costa Rica
126	Holland	312	El Salvador
126	Netherlands	313	Guatemala
127	Norway	314	Honduras
128	Poland	315	Mexico
129	Portugal	316	Nicaragua
130	Azores	317	Panama
132	Romania	318	Central America
134	Spain	333	Bahamas
136	Sweden	334	Barbados
137	Switzerland	337	Cuba
138	Great Britain	338	Dominica
139	England	339	Dominican Republic
140	Scotland	340	Grenada
142	Northern Ireland	342	Haiti
147	Yugoslavia	343	Jamaica
148	Europe	351	Trinidad & Tobago
155	Czech Republic	353	Caribbean
156	Slovakia/Slovak Republic	375	Argentina
180	USSR	376	Bolivia
183	Latvia	377	Brazil
184	Lithuania	378	Chile
185	Armenia	379	Colombia
192	Russia	380	Ecuador
195	Ukraine	383	Guyana
200	Afghanistan	385	Peru
202	Bangladesh	387	Uruguay
205	Burma	388	Venezuela
206	Cambodia	389	South America
207	China	415	Egypt
209	Hong Kong	417	Ethiopia
210	India	421	Ghana
211	Indonesia	427	Kenya
212	Iran	436	Morocco
213	Iraq	440	Nigeria
214	Israel	449	South Africa
215	Japan	462	Other Africa

<b>Code</b>	<b>Name</b>	<b>Code</b>	<b>Name</b>
216	Jordan	468	North Africa
217	Korea/South Korea	501	Australia

### ALLOCATION FLAGS

#### Current Population Survey

For every edited item, there is a corresponding allocation flag with the prefix "PX". The last six characters of the names are the same. For example, PXMLR is the allocation flag for PEMLR. All allocation flags have the following list of possible values.

00	VALUE - NO CHANGE
01	BLANK - NO CHANGE
02	DON'T KNOW - NO CHANGE
03	REFUSED - NO CHANGE
10	VALUE TO VALUE
11	BLANK TO VALUE
12	DON'T KNOW TO VALUE
13	REFUSED TO VALUE
20	VALUE TO LONGITUDINAL VALUE
21	BLANK TO LONGITUDINAL VALUE
22	DON'T KNOW TO LONGITUDINAL VALUE
23	REFUSED TO LONGITUDINAL VALUE
30	VALUE TO ALLOCATED VALUE LONG.
31	BLANK TO ALLOCATED VALUE LONG.
32	DON'T KNOW TO ALLOCATED VALUE LONG.
33	REFUSED TO ALLOCATED VALUE LONG.
40	VALUE TO ALLOCATED VALUE
41	BLANK TO ALLOCATED VALUE
42	DON'T KNOW TO ALLOCATED VALUE
43	REFUSED TO ALLOCATED VALUE
50	VALUE TO BLANK
52	DON'T KNOW TO BLANK
53	REFUSED TO BLANK

## ATTACHMENT 17

### Source and Accuracy Statement for the September 2000 CPS Microdata File for Food Security

#### SOURCE OF DATA

The data for this microdata file came from the September 2000 Current Population Survey (CPS), conducted by the Census Bureau. The September survey uses two sets of questions, the basic CPS and the supplement.

**Basic CPS.** The monthly CPS collects primarily labor force data about the civilian noninstitutional population. Interviewers ask questions concerning labor force participation about each member 15 years old and over in every sample household.

**CPS September 2000 Supplement.** In addition to the basic CPS questions, interviewers asked supplementary questions in September 2000 about the type and amount of food families ate.

**Sample Design.** The present CPS sample was selected from the 1990 Decennial Census files with coverage in all 50 states and the District of Columbia. The sample is continually updated to account for new residential construction. To obtain the sample, the United States was divided into 2,007 geographic areas. In most states, a geographic area consisted of a county or several contiguous counties. In some areas of New England and Hawaii, minor civil divisions are used instead of counties. These 2,007 geographic areas were then grouped into 754 strata, and one geographic area was selected from each stratum. About 50,000 occupied households are eligible for interview every month out of these 754 areas. Interviewers are unable to obtain interviews at about 3,200 of these units. This occurs when the occupants are not found at home after repeated calls or are unavailable for some other reason.

**Sample Redesign.** Since the introduction of the CPS, the Census Bureau has redesigned the CPS sample several times. These redesigns have improved the quality and accuracy of the data and have satisfied changing data needs. The most recent changes were phased in and implementation was completed in July 1995.

**Estimation Procedure.** This survey's estimation procedure adjusts weighted sample results to agree with independent estimates of the civilian noninstitutional population of the United States by age, sex, race, Hispanic<sup>1</sup>/non-Hispanic ancestry, and state of residence. The adjusted estimate is called the post-stratification ratio estimate. The independent estimates are calculated based on information from four primary sources:

- C The 1990 Decennial Census of Population and Housing.
- C An adjustment for undercoverage in the 1990 census.
- C Statistics on births, deaths, immigration, and emigration.
- C Statistics on the size of the armed forces.

The independent population estimates include some, but not all, of undocumented immigrants.

---

<sup>1</sup>Hispanics may be of any race.

## ACCURACY OF THE ESTIMATES

A sample survey estimate has two types of error: sampling and nonsampling. The accuracy of an estimate depends on both types of error. The nature of the sampling error is known given the survey design. The full extent of the nonsampling error, however, is unknown.

**Sampling Error.** Since the CPS estimates come from a sample, they may differ from figures from a complete census using the same questionnaires, instructions, and enumerators. This possible variation in the estimates due to sampling error is known as “sampling variability.”

**Nonsampling Error.** All other sources of error in the survey estimates are collectively called nonsampling error. Sources of nonsampling error include the following:

- ⊞ Inability to get information about all sample cases.
- ⊞ Definitional difficulties.
- ⊞ Differences in interpretation of questions.
- ⊞ Respondent inability or unwillingness to provide correct information.
- ⊞ Respondent inability to recall information.
- ⊞ Errors made in data collection, such as recording and coding data.
- ⊞ Errors made in processing the data.
- ⊞ Errors made in estimating values for missing data.
- ⊞ Failure to represent all units with the sample (undercoverage).

Two types of nonsampling error that can be examined to a limited extent are nonresponse and coverage.

**Nonresponse.** The effect of nonresponse cannot be measured directly, but one indication of its potential effect is the nonresponse rate. For the September 2000 basic CPS, the nonresponse rate was 6.9%. The nonresponse rate for the supplement was an additional 13.3%, for a total supplement nonresponse rate of 19.3%.

**Coverage.** The concept of coverage in the survey sampling process is the extent to which the total population that could be selected for sample “covers” the survey’s target population. CPS undercoverage results from missed housing units and missed people within sample households. Overall CPS undercoverage is estimated to be about 8 percent. CPS undercoverage varies with age, sex, and race. Generally, undercoverage is larger for males than for females and larger for Blacks and other races combined than for Whites. As described previously, ratio estimation to independent age-sex-race-Hispanic population controls partially corrects for the bias due to undercoverage. However, biases exist in the estimates to the extent that missed people in missed households or missed people in interviewed households have different characteristics from those of interviewed people in the same age-sex-race-ancestry-state group.

**Table 1.** CPS Coverage Ratios

Age	Non-Black		Black		All People		
	M	F	M	F	M	F	Total
0-14	0.929	0.964	0.850	0.838	0.916	0.943	0.929
15	0.933	0.895	0.763	0.824	0.905	0.883	0.895
16-19	0.881	0.891	0.711	0.802	0.855	0.877	0.866
20-29	0.847	0.897	0.660	0.811	0.823	0.884	0.854
30-39	0.904	0.931	0.680	0.845	0.877	0.920	0.899
40-49	0.928	0.966	0.816	0.911	0.917	0.959	0.938
50-59	0.953	0.974	0.896	0.927	0.948	0.969	0.959
60-64	0.961	0.941	0.954	0.953	0.960	0.942	0.950
65-69	0.919	0.972	0.982	0.984	0.924	0.973	0.951
70+	0.993	1.004	0.996	0.979	0.993	1.002	0.998
15+	0.914	0.945	0.767	0.874	0.898	0.927	0.918
0+	0.918	0.949	0.793	0.864	0.902	0.931	0.921

A common measure of survey coverage is the coverage ratio, the estimated population before post-stratification divided by the independent population control. Table 1 shows CPS coverage ratios for age-sex-race groups for a typical month. The CPS coverage ratios can exhibit some variability from month to month. Other Census Bureau household surveys experience similar coverage.

**Comparability of Data.** Data obtained from the CPS and other sources are not entirely comparable. This results from differences in interviewer training and experience, and in differing survey processes. This is an example of nonsampling variability not reflected in the standard errors. Therefore, caution should be used when comparing results from different sources.

A number of changes were made in data collection and estimation procedures beginning with the January 1994 CPS. The major change was the use of a new questionnaire. The questionnaire was redesigned to measure the official labor force concepts more precisely, to expand the amount of data available, to implement several definitional changes, and to adapt to a computer-assisted interviewing environment. The September supplemental food security questions were also modified for adaptation to computer-assisted interviewing, although there were no changes in definitions and concepts. Due to these and other changes, one should use caution when comparing estimates from data collected before 1994 with estimates from data collected in 1994 and later.

Caution should also be used when comparing data from this microdata file, which reflects 1990 census-based population controls, with microdata files from 1993 and earlier years, which reflect 1980 census-based population controls. Although this change in population controls had relatively little impact on summary measures such as averages, medians, and percentage distributions, it did have a significant impact on levels. For example, use of 1990 based population controls results in about a 1 percent increase in the civilian noninstitutional population and in the number of families and households. Thus, estimates of levels for data collected in 1994 and later years will differ from those for earlier years by more than what could be attributed to actual changes in the population. These differences could be disproportionately greater for certain subpopulation groups than for the total population.

Caution should also be used when comparing Hispanic estimates over time. No independent population control totals for people of Hispanic ancestry were used before 1985.

Based on the results of each decennial census, the Census Bureau gradually introduces a new sample design for the CPS. During this phase-in period, CPS data are collected from sample designs based on different censuses. While most CPS estimates were unaffected by this mixed sample, geographic estimates are subject to greater error and variability. Users should exercise caution when comparing estimates across years for metropolitan/nonmetropolitan categories.

**A Nonsampling Error Warning.** Since the full extent of the nonsampling error is unknown, one should be particularly careful when interpreting results based on small differences between estimates. Even a small amount of nonsampling error can cause a borderline difference to appear significant or not, thus distorting a seemingly valid hypothesis test. Caution should also be used when interpreting results based on a relatively small number of cases. Summary measures probably do not reveal useful information when computed on a base<sup>2</sup> smaller than 75,000.

For additional information on nonsampling error including the possible impact on CPS data when known, refer to

- Statistical Policy Working Paper 3, *An Error Profile: Employment as Measured by the Current population Survey*, Office of Federal Statistical Policy and Standards, U.S. Department of Commerce, 1978.
- Technical Paper 63, *Current Population Survey: Design and Methodology*, U.S. Census Bureau, U.S. Department of Commerce, 2000.

**Standard Errors and Their Use.** The sample estimate and its standard error enable one to construct a confidence interval. A confidence interval is a range that would include the average result of all possible samples with a known probability. For example, if all possible samples were surveyed under essentially the same general conditions and the same sample design, and if an estimate and its standard error were calculated from each sample, then approximately 90 percent of the intervals from 1.645 standard errors below the estimate to 1.645 standard errors above the estimate would include the average result of all possible samples.

A particular confidence interval may or may not contain the average estimate derived from all possible samples. However, one can say with specified confidence that the interval includes the average estimate calculated from all possible samples.

Standard errors may be used to perform hypothesis testing. This is a procedure for distinguishing between population parameters using sample estimates. The most common type of hypothesis is that two population parameters are different. An example of this would be comparing the percentages of Whites with a college education to the percentage of Blacks with a college education.

Tests may be performed at various levels of significance. A significance level is the probability of concluding that the characteristics are different when, in fact, they are the same. For example, to conclude that two

---

<sup>2</sup>subpopulation

parameters are different at the 0.10 level of significance, the absolute value of the estimated difference between characteristics must be greater than or equal to 1.645 times the standard error of the difference.

The Census Bureau uses 90-percent confidence intervals and 0.10 levels of significance to determine statistical validity. Consult standard statistical textbooks for alternative criteria.

**Estimating Standard Errors.** To estimate the standard error of a CPS estimate, the Census Bureau uses replicated variance estimation methods. These methods primarily measure the magnitude of sampling error. However, they do measure some effects of nonsampling error as well. They do not measure systematic biases in the data due to nonsampling error. (Bias is the average of the differences, over all possible samples, between the sample estimates and the desired value.)

**Generalized Variance Parameters.** Consider all of the possible estimates of characteristics of the population that are of interest to data users. Now consider all of the subpopulations such as racial groups, age ranges, etc. Finally, consider every possible comparison or ratio combination. The list would be completely unmanageable. Similarly, a list of standard errors to go with every estimate would be unmanageable.

Through experimentation, we have found that certain groups of estimates have similar relationships between their variances and expected values. We provide a generalized method for calculating standard errors for any of the characteristics of the population of interest. The generalized method uses generalized variance parameters for groups of estimates. These parameters are in Table 2, for September supplement data, and Table 3, for basic CPS monthly labor force estimates.

**Standard Errors of Estimated Numbers.** The approximate standard error,  $s_x$ , of an estimated number from this microdata file can be obtained using this formula:

$$s_x = \sqrt{ax^2 + bx} \quad (1)$$

Here  $x$  is the size of the estimate and  $a$  and  $b$  are the parameters in Table 2 or 3 associated with the particular type of characteristic. When calculating standard errors for numbers from cross-tabulations involving different characteristics, use the factor or set of parameters for the characteristic which will give the largest standard error.

For information on calculating standard errors for labor force data from the CPS which involve quarterly or yearly averages see "Explanatory Notes and Estimates of Error: Household Data" in *Employment and Earnings*, a monthly report published by the Bureau of Labor Statistics.

#### Illustration No. 1

Suppose you want to calculate the standard error and a 90 percent confidence interval of the number of unemployed females in the civilian labor force when the number of unemployed females in the civilian labor force is about 2,891,000. Use Formula (1) and the appropriate parameters from Table 3 to get:

Number, x	2,891,000
a parameter	-0.000018
b parameter	2,957
Standard error	92,000
90% conf. int.	2,740,000 to 3,042,000

where the standard error is calculated as

$$s_x = \sqrt{0.000018 \times 2,891,000^2 + 2,957 \times 2,891,000} = 92,000$$

The 90-percent confidence interval is calculated as  $2,891,000 \pm 1.645 \times 92,000$ .

A conclusion that the average estimate derived from all possible samples lies within a range computed in this way would be correct for roughly 90 percent of all possible samples.

**Standard Errors of Estimated Percentages.** The reliability of an estimated percentage, computed using sample data from both numerator and denominator, depends on both the size of the percentage and its base. Estimated percentages are relatively more reliable than the corresponding estimates of the numerators of the percentages, particularly if the percentages are 50 percent or more. When the numerator and denominator of the percentage are in different categories, use the parameter from Table 2 or 3 indicated by the numerator.

The approximate standard error,  $s_{x,p}$ , of an estimated percentage can be obtained by using the following formula:

$$s_{x,p} = \sqrt{\frac{b}{x} p (100 - p)} \quad (2)$$

Here  $x$  is the total number of people, families, households, or unrelated individuals in the base of the percentage,  $p$  is the percentage ( $0 \neq p \neq 100$ ), and  $b$  is the parameter in Table 2 or 3 associated with the characteristic in the numerator of the percentage.

### Illustration No. 2

In September 2000, of the 38,113,000 households in the United States that had children between 0 and 18 years of age, 83.8% were classified as food secure. Using the appropriate parameter from Table 2 and Formula (2) gives

Percentage, p	83.8
Base, x	38,113,000
b parameter	2,068
Standard error	0.27
90% conf. int.	83.4 to 84.2

where the standard error is calculated as

$$s_{x,p} = \sqrt{\frac{2,068}{38,113,000} \times 83.8 \times (100 - 83.8)} = 0.27$$

The 90-percent confidence interval is calculated as  $83.8 \pm 1.645 \times 0.27$ .

**Standard Error of a Difference.** The standard error of the difference between two sample estimates is approximately equal to

$$s_{x\&y} = \sqrt{s_x^2 + s_y^2} \quad (3)$$

where  $s_x$  and  $s_y$  are the standard errors of the estimates, x and y. The estimates can be numbers, percentages, ratios, etc. This will represent the actual standard error quite accurately for the difference between estimates of the same characteristic in two different areas, or for the difference between separate and uncorrelated characteristics in the same area. However, if there is a high positive (negative) correlation between the two characteristics, the formula will overestimate (underestimate) the true standard error.

For information on calculating standard errors for labor force data from the CPS which involve differences in consecutive quarterly or yearly averages, consecutive month-to-month differences in estimates, and consecutive year-to-year differences in monthly estimates see “Explanatory Notes and Estimates of Error: Household Data” in *Employment and Earnings*, a monthly report published by the Bureau of Labor Statistics.

Illustration No. 3

In September 2000, of the 38,113,000 households in the United States that had children between 0 and 18 years of age, 31,942,000 or 83.8% were classified as being food secure. Of the 67,930,000 households in the United States that did not have children between 0 and 18 years of age, 63,000,000 or 92.7% were classified as being food secure.

	x	y	difference
Percentage, p	83.8	92.7	8.9
Base, x	38,113,000	67,930,000	-
b parameter	2,068	2,068	-
Standard error	0.27	0.14	0.30
90% conf. int.	83.4 to 84.2	92.5 to 92.9	8.4 to 9.4

The standard error of the difference is calculated as

$$s_{x \& y} = \sqrt{0.27^2 + 0.14^2} = 0.30$$

The 90-percent confidence interval for the estimated difference between the households is calculated as  $8.9 \pm 1.645 \times 0.30$ . Because this interval does not include zero, we can conclude with 90-percent confidence that the percentage of families with children who reported running out of money for food is greater than the percentage of families without children who reported running out of money for food.

**Accuracy of State Estimates.** The redesign of the CPS following the 1980 census provided an opportunity to increase efficiency and accuracy of state data. All strata are now defined within state boundaries. The sample is allocated among the states to produce state and national estimates with the required accuracy while keeping total sample size to a minimum. Improved accuracy of state data was achieved with about the same sample size as in the 1970 design.

Since the CPS is designed to produce both state and national estimates, the proportion of the total population sampled and the sampling rates differ among the states. In general, the smaller the population of the state the larger the sampling proportion. For example, in Vermont approximately 1 in every 400 households is sampled each month. In New York the sample is about 1 in every 2,000 households. Nevertheless, the size of the sample in New York is four times larger than in Vermont because New York has a larger population.

**Computation of Standard Errors for State Estimates.** Standard errors for a state may be obtained by computing national standard errors, using formulas described earlier, and multiplying these by the appropriate f factor from Table 4. An alternative method for computing standard errors for a state is to multiply the a and b parameters in Table 2 or 3 by  $f^2$  and then use these adjusted parameters in the standard error formulas.

#### Illustration No. 4

Suppose you want to calculate the standard error for the percentage of people 18 years old and over living in the state of New York who had completed a bachelor's degree or more. Suppose about 3,155,700 (23.1 percent) people had completed at least a bachelor's degree when there were about 13,684,000 people aged 18 and over living in New York. Following the first method mentioned above, use the appropriate parameter from Table 2 and Formula (2) to get:

Percentage, p	23.1
Base, x	13,684,000
b parameter	2,369
State factor, f	0.94
Standard error	0.55

Table 4 shows the f factor for New York to be 0.94. Thus, the standard error on the estimate of the percentage of people 18 and over in New York state who had completed college is approximately  $0.55 \times 0.94 = 0.52$ .

Following the alternative method mentioned above, obtain the needed state parameter by multiplying the parameter in table 3 by the  $f^2$  factor in Table 4 for the state of interest. For example, for educational attainment for total or white in New York this gives  $b = 2,369 \times 0.89 = 2,108$ . The standard error of the estimate of the percentage of people 18 and older in New York state who had completed college can then be found by using formula (2), the base of 13,684,000 and the new b parameter, 2,108. This gives a standard error of 0.52.

**Technical Assistance.** If you require assistance or additional information, please contact the Demographic Statistical Methods Division via e-mail at [DSMD\\_S&A@census.gov](mailto:DSMD_S&A@census.gov).

### **USER NOTES**

This section will contain information relevant to the *Current Population Survey, September 2000: Food Security Supplement File* that becomes available after the file is released. The cover letter to the updated information should be filed behind this page.

User notes will be sent to all users who purchased their file or technical documentation from the Census Bureau.

# CURRENT POPULATION SURVEY

## FOOD SECURITY SUPPLEMENT, SEPTEMBER 2000

### User Note 1

#### **Overview**

This document provides technical information on the Current Population Survey Food Security Supplement (CPS-FSS) conducted by the U.S. Census Bureau for the U.S. Department of Agriculture in September 2000.

The CPS-FSS is available from the U.S. Census Bureau in three formats: ASCII format on CD-ROM, ASCII format via the FERRETT system, and SAS transport format via the FERRETT system. The Food Security Briefing Room on the Economic Research Service Web site (URL below) provides additional documentation, a facsimile of the questionnaire, and information on the concepts and history of the food security measurement project.

#### **Technical Description: CPS Food Security Supplement September 2000 Public-Use Microdata File**

The CD-ROM data file is in ASCII format and consists of 134,856 logical records. The length of each record is 1,115 characters. Each record represents one person in a surveyed household or one address that was selected for the core labor force survey but that either was vacant, was not a residence, could not be contacted, or refused to participate. Non-interview households (13,198) are included in the CD-ROM file with their non-interview status indicated. Interviewed households (47,878) include 121,658 person records. Households that completed the Food Security Supplement as well as the labor force survey (40,460) include 103,320 person records.

The FERRET system files do not include non-interview households (but do include interviewed households with Supplement data missing). Data files downloaded from FERRET, therefore, exclude non-interview households and consist of 121,658 records representing 47,878 households.

A subset of variables on each record contains data about the household of which the person is a part. These variables have the same value for all persons in the same interview household.

#### **Contents of the Data Files**

The file includes data in three general categories:

(1) Monthly labor force survey data and recodes, collected by the Census Bureau for the Bureau of Labor Statistics. These variables are described briefly in the data dictionary. For concepts and definitions underlying these data, users should refer to the technical documentation for the CPS monthly labor force data available from the Bureau of Labor Statistics. Included are geographic, demographic, income, and employment data that may be of interest to those analyzing the Food Security Supplement data.

(2) Food Security Supplement data, collected by the Census Bureau for the United States Department of Agriculture. These data consist of answers by household respondents to questions about household food expenditures, use of food assistance programs, and experiences and behaviors related to food security, food insecurity, and hunger. All of the Food Security Supplement data are household-level data except for the Supplement person weight.

(3) Food security and hunger scale and status indicators calculated from the Food Security Supplement data by the Economic Research Service of the United States Department of Agriculture. These indicate the screening status of the household, as well as continuous and categorical measures of food security status. They are all household-level variables.

## **Contents of the Food Security Supplement**

A facsimile of the Food Security Supplement questionnaire is available on the ERS Web site (address at end of this document) and on the public-use data file CD-ROM available from the Census Bureau. Variable names in the data dictionary generally consist of the prefix HE (household variable, edited) followed by the question number from the questionnaire. The major sections are as follows:

Food Spending (HES1-HES8).

Food Assistance Program Participation (HES9-HESP9).

Food Sufficiency and Food Security (HESS1-HESSH5A). This section includes the 18 food security and hunger questions that are used to calculate the household food security scale.

Ways of Avoiding or Ameliorating Food Deprivation - Coping Strategies (HESC1-HESC4).

Minimum Food Spending Needed (HES10-HES12)

## **Changes from Previous Years' Food Security Supplements**

The following changes were introduced in the 2000 Food Security Supplement:

The question on reduced-cost meals for the elderly was split into two questions (HESP5, HESP5A) to clearly include both meals delivered to the home as well as meals at a community center or senior center. A question was added to ask about free or reduced-cost food received at a day-care or Head Start program (HESP7A).

The split ballot test of the two forms of the USDA/NHANES food sufficiency questions was discontinued. The single-question form (HESS1) was retained.

A split ballot test of variants of the first three questions in the food security scale (HESS2A, HESS3A, and HESS4A) was initiated for households in rotation 8. The questions were proposed by Health Canada for national surveys in Canada.

The split ballot test of individually referenced questions conducted in 1998 and 1999 was discontinued.

A split ballot test of follow-ups to six questions in the hunger and severe hunger series (HESHF2A, HESHF3A, HESHF4A, HESSHF1A, HESSHF2A, and HESSHF4A) was initiated for households in rotation 8. The test question asks, “In months when [behavior or experience occurred], how many days did this usually happen?” The 30-day follow-up question for these households was skipped.

A revised method was introduced for asking about the minimum amount that households need to spend for food in order to meet the needs of the household (HES10, HES11, and HES12).

Three variables based on the children’s food security scale are included in the data file (HRFS12M5, HRFS12M6, and HRFS12M7) to characterize food stress among children. The scale is calculated from the 8 child-referenced questions in the household food security scale and did not require any changes to the questionnaire.

### **Screening of the Food Security Supplement**

The Food Security Supplement includes several screens to reduce respondent burden and to avoid embarrassing respondents by asking them questions that are inappropriate given other information they have provided in the survey. The screener variables use information from the monthly labor force core data as well as from the Food Security Supplement. Households with incomes above 185 percent of the poverty threshold (HRPOOR=2, estimated from HUFAMINC and HRNUMHOU) that responded “no” to HES9 were not asked the questions on participation in food assistance programs. Households with income above 185 percent of poverty that registered no indication of food stress on HES9 or HESS1 were not asked the rest of the questions in the “Food Sufficiency and Food Security” section or those in the “Ways of Avoiding or Ameliorating Food Deprivation” section. There are also two “internal” screeners in the main food security section (the questions that are used to calculate the household food security scale). This series of questions is divided into three blocks. After each of the first two blocks, households that registered no indication of food stress in the preceding block are skipped over the rest of the “Food Sufficiency and Food Security” section.

The screening rules that determine whether a household was asked the questions in the food security scale varied somewhat during the first four years of fielding the Food Security Supplement. These different screening procedures biased estimated prevalences of food insecurity and hunger differently in each year. Adjustments must be made for these differences to compare prevalences of food security and hunger across years. This topic is discussed further below under the heading “Food Security Scales and Screener Variables.”

Screeners also were applied based on whether the household included any children, so those households without children were not asked questions that refer specifically to children. For this purpose, persons 17 or younger are classified as children except those who are household reference persons or spouses of household reference persons (PERRP=1, 2, or 3). In the 2000 Food Security Supplement, unlike in previous years, the exception for minor reference persons and spouses of reference persons was made in the survey instrument and is, therefore, correctly reflected in the responses in the data file.

## Food Security Scales and Screener Variables

The main purpose of the Food Security Supplement is to provide information about food security, food insecurity, and hunger in the nation's households. Several variables are provided in the data file that identifies the food security status of each household during the previous 12 months. All of these variables are based on responses to a set, or subset, of 18 questions in the Supplement that are indicators of food insecurity and hunger. HRFS12M3 is the raw score—a count of the number of questions affirmed by the household respondent. HRFS12M4 is the household food security scale score, a continuous score based on fitting the data to a single-parameter Rasch model using item calibrations calculated from the 1998 data. Computed values range from about 1 to 14. Scale scores for households that affirmed no items cannot be calculated within the Rasch model. These households are food secure, but the degree of their food security is not known and may vary widely from household to household. They are assigned scale scores of -6 to remind users that they require special handling in analyses that assume linearity of the scale scores. HRFS12M1 is a categorical variable based on the scale score that classifies households in three categories: food secure, food insecure without hunger, and food insecure with hunger. HRFS12M2 is the same as HRFS12M1 except that the food-insecure-with-hunger category is subdivided to level 1 and level 2 hunger. The level 2 hunger category corresponds operationally with the “Severe Hunger” category described in *Household Food Security in the United States in 1995: Summary Report of the Food Security Measurement Project* and with the “Food Insecure with Hunger (Severe)” category described in *Guide to Measuring Household Food Security – 2000*, both published by the Food and Nutrition Service.

An second set of food security status variables indicating the level of food stress among children in the household is calculated from responses to the 8 questions in the scale that ask specifically about conditions among the children. The children's food security scale variables are HRFS12M6 (raw score), HRFS12M7 (Rasch-based scale score), and HRFS12M5 (2-category children's hunger status indicator).

The food security variables described above are based on responses to the 18 food security indicator questions as they were administered in the 2000 survey. They are directly comparable to the corresponding variables in the August 1998 and April 1999 surveys. A second set of food security scale and status indicators are provided to facilitate comparisons to years prior to 1998. These “common screen” variables are adjusted for inter-year differences in survey screening procedures and are comparable to corresponding variables in all earlier years' CPS-FSS data files. Prevalence estimates based on these common-screen variables are comparable across all survey years. The common-screen-based food security variables are HRFS12C3 (raw score), HRFS12C4 (Rasch-based scale score), HRFS12C1 (3-category food security status indicator), and HRFS12C2 (4-category food security status indicator). The common-screen food security variables are needed because the screening procedures used in administering the Food Security Supplements varied somewhat from year to year. In all years, households that were screened out after a few initial questions are classified as food secure. However, comparisons across years of the item responses of households with identical responses to the preliminary screener variables show that some households that were screened out under more stringent screening rules would have been classified as food insecure (or, in a few cases, even as food insecure with hunger) if they had not been screened out. The screening procedures, therefore, bias prevalence estimates of food security and hunger downward, and the extent of the bias varies across years. To compare prevalence rates to years prior to 1998, it is essential to adjust the data from each year so that it matches, as nearly as possible, a common set of screening procedures. That is, negative responses must be imputed to households that

would have been screened out at the initial screener in any year. For surveys prior to 1998, negative responses also must be imputed to “downstream” variables for households that would have been screened out at either of the internal screens that were first implemented in 1998. Adjustment of the children’s food security variables for screening differences is not necessary. The effects of the different screening procedures on the measured prevalence of hunger among children is negligible.

Two screener status variables are provided. HRFS12MS refers to screening status under the screen that was applied when the survey was administered (the “maximum-sample screen.”) The variable indicates whether the household was screened out at the initial screen (before the first of the 18 scale questions), or was screened out after the first or second blocks of questions, or was not screened out and was asked all questions. Households that were screened out at the initial screen without giving a valid response to either screening question, or who were screened out after the first or second block without having given a valid response to any of the questions in the scale are coded as “Missing” (-5) on HRFS12MS. The corresponding food security scale and status variables for these households (HRFS12M1 through HRFS12M7) are coded as “No Response” (-9).

HRFS12CS refers to screening status under the 1995-2000 common screen. Categories are the same as for the maximum-sample screen variable, and households that would have been screened out with no valid responses to any of the indicator questions under the common screen are coded as “Missing” (-5). Common-screen food security scale and status variables (HRFS12C1 through HRFS12C4) for these households are coded as “No Response” (-9).

### **Constructing Household Characteristics from Person Records**

To compute some household characteristics such as household size, presence of children, or presence of elderly members, it is necessary to identify the records of all persons in the same household. Households are uniquely and completely identified by State of residence (GESTCEN), household identifier (HRHHID), and household serial suffix (HSERSUF). Sort records within households by PERRP if the household reference person record must be the first record in the household. To match to other months’ CPS files, add the HRMIS variable to the household identification, adjusting one of the files for the difference in survey month. For matching to the March Annual Demographic Supplement, HRSERSUF may need to be recoded.

### **Weights: Estimating Population Distributions of Person and Household Characteristics**

The CPS is a complex probability sample, and interviewed households as well as persons in those households are assigned weights so that the full interviewed sample represents the total national civilian non-institutionalized population. Initial weights are assigned based on probability of selection into the sample, and weights are then adjusted iteratively to match population controls for selected demographic characteristics at State and national levels. There are two sets of household and person weights in this data file: (1) labor force survey weights, (2) Food Security Supplement weights.

The labor force survey weights, HWHHWGT for households and PWSSWGT for persons, are positive for persons in all interviewed households. These weights would be appropriate for analyzing whether households or persons who completed the Supplement differed from those who declined to complete the Supplement.

About 12 percent of households completed the core labor force survey but declined to complete the Food Security Supplement. The Supplement weights, HHSUPWGT for households and PWSUPWGT for persons, are adjusted for Supplement non-response so that the Supplement respondents represent the national civilian non-institutionalized population. These weights are appropriate for estimating household distributions of variables in the Food Security Supplement, including food security status.

Household weights are attached to all person records in the household. To estimate household frequency distributions, the sample must be limited to one record for each household. This is usually accomplished by limiting the sample to records of household reference persons (PERRP=1 or 2). Non-interview or non-supplement households must be excluded from these analyses based on HRINTSTA or HRSUPINT.

All weight variables have four implied decimal places in the CD-ROM (the decimal point is not included). Divide the weight variables by 10,000 for analysis in units or by 10,000,000 for analysis in thousands of persons or thousands of households. The format of weight variables downloaded from FERRET are somewhat unpredictable. Sometimes they are in units; sometimes they have four implied decimal places. These should be checked prior to use.

### **Further Information**

Information on the Federal Food Security Measurement Project, and on survey and measurement issues, is available from:
